## SPRING 2021

| January   | 8   | Friday  | New student registration   |
|           | 11  | Monday  | Classes Begin              |
|           | 18  | Monday  | SU closed – no classes      |
|           | 19  | Tuesday | Last day to register late   |
|           | 27  | Wednesday| Last day to add courses    |
| February  | 5   | Friday  | Application for Diploma due: Spring and Summer candidates |
|           | 15  | Monday  | Last day to drop courses without record entry or change to/from P/D/F, audit |
| March     | 12  | Friday  | Spring Break begins at 10 p.m. (March 15 - 19) |
|           | 22  | Monday  | Classes resume at 8 a.m.    |
|           | 24  | Wednesday| Last day to drop courses   |
| April     | 2   | Friday  | SU closed – no classes      |
|           | 13  | Tuesday | Spring Research and Creative Works Symposium (No Classes) |
|           | 28  | Wednesday| Last day of classes        |
|           | 29-30 | Thurs-Fri | Study days – no classes    |
| May       | 1-2 | Sat-Sun | Study days – no classes     |
|           | 3   | Monday  | Seniors’ (prospective May graduates) grades due in |
|           |     |         | Office of the Registrar by noon |
|           | 3-7 | Mon-Fri | Final examinations          |
|           | 8   | Saturday| Commencement                |
|           | 12  | Wednesday| Remainder of grades due by 5:00 p.m. |
|           | 28  | Friday  | Last day for removing “Incomplete” grades |

## SUMMER 2021

| Summer I Term | May 12 – June 18 (May 31 SU closed-no classes) |
| Summer III/Non-Residential Term | May 12 – August 12 (Please check the calendars of individual programs, including the Southwestern Summer Study Abroad Program.) |
| Summer III grades due | August 20 |

*Updated calendar approved by the Curriculum Committee on 7/30/20.*
ADMISSION AND FINANCIAL INFORMATION

ADMISSION PROCEDURES
Those interested in studying at Southwestern University must apply to the University through the Office of Admission. The University admits those students most able to successfully complete a degree program, make positive contributions to the overall life of the Southwestern community and become productive citizens following graduation. Admission is selective and involves a thorough review of each candidate’s academic and personal qualifications.

Requirements for Admission
Students who graduate from accredited high schools may be admitted if their academic records, recommendations and other application elements indicate promise of success at Southwestern. Southwestern University strongly recommends that all students present a minimum of 18 academic units from their secondary school work. In addition to graduation from an accredited high school, it is strongly recommended that students present, four years of English, four years of mathematics, four years of social science and/or history, three years of science, two years of a foreign language, and one year of an academic elective from the above-mentioned areas. Southwestern’s academic merit scholarship requirements normally require the same 18 academic unit foundation for consideration.

Applicants may submit the SAT or the ACT as part of their admission and merit scholarship review or may choose to apply test score optional and participate in a required interview for test optional students. Traditionally, Homeschool and international students must submit test scores. For consideration in our competitive Brown and Garey, a standardized test score must be submitted. For the 2020-2021 Academic year, testing will be optional for all populations and for all scholarships. An interview will be required in its place.

Applicants are invited to submit, with their application, any evidence that they think would help the Admission Committee reach its decision on eligibility for admission, including creative samples and written statements to supplement the required essay. A personal interview is required in some cases and strongly recommended for all. Candidates for admission are considered based on their total record—academic as well as extracurricular—although a strong academic record is always necessary.

Applicants are responsible for ensuring the arrival of all materials necessary to complete their application, including transcripts and recommendations from guidance counselors and teachers. Applicants are responsible for checking their personal admission portal or contacting the Office of Admission to determine whether or not their file is complete prior to deadline dates.

Those who plan to major in fine arts are encouraged to have an audition/interview/portfolio review prior to admission to their respective curricula. A formal audition/portfolio review is required for fine arts scholarships and may be required for entry into certain majors.

FIRST YEAR APPLICATION OPTIONS

Early Admission
A few students may be admitted each year following their junior year in high school. In these cases, the candidate is expected to have an outstanding academic record, acceptable test score results and the maturity to enter college without the senior year of high school. A personal interview is required.

Early Decision
Students for whom Southwestern is their clear first choice may apply under Early Decision. Southwestern must receive the application and all supporting documents by November 2 of the student’s senior year in high school. If admitted the enrollment and housing deposit will be due by January 1. A need based financial aid package will be presented to the student prior to the required deposit date, assuming the FAFSA has been received by December 1. If the student accepts the offer of admission, applications to all other schools must be withdrawn at that time and no other applications may be submitted to other schools.

Early Action
Southwestern provides an Early Action option for students who consider the institution to be one of their top choices, but who also wish to consider other admission offers before making a final decision. The application deadline is December 1 of the student’s senior year in high school. Admission decisions will be made by March 1. For those students admitted, normal financial aid and candidate reply deadlines will apply: March 1 to submit financial aid forms and May 3 to accept or decline the offer to enroll. Some application decisions may be deferred to Regular Decision when additional items are required by the Admission Committee (e.g., interview, 7th semester grades, etc.) in order to complete the file.

Regular Decision
Regular Decision is the third admission option for students considering Southwestern University. The application deadline is February 1 of the senior year of high school, with final admission decisions made by April 1. Financial aid and candidate reply deadlines are the same as mentioned above in Early Action.

Transfer Students
Each year, Southwestern enrolls a limited number of transfer students. An overall grade point average of 3.0 or better (on a 4.0 scale) on all college work is typically expected; however, each candidate’s potential for success at Southwestern is evaluated individually. Applicants are welcome to submit other information (in addition to those items mentioned under “Requirements for Admission” above) in order to assist the Committee in its review.

The College Conduct Report is required and must be completed by a college official(s) with access to a student’s disciplinary record. In addition, transfer students must furnish official transcripts of high school and all college-level work attempted. All credits are accepted on the basis of the classification given that institution by its accreditation agency or agencies. Credits earned at non-accredited institutions are subject to re-evaluation on the basis of the quality of work done at Southwestern University. No grade below C- is accepted for transfer from another institution.

Other Admission Information
Some colleges have entered into cooperative programs with high schools whereby high school students may enroll in first-year college-level classes and receive college and high school credit concurrently. Southwestern will transfer these credits toward a degree, provided they meet the criteria in the preceding paragraph and are submitted to Southwestern on an official college transcript. A student graduating from high school just prior to their first semester of college will be considered a first-year student, regardless of hours earned under a concurrent enrollment program.

The University requires a minimum of 127 credits for the awarding of a bachelor’s degree. A student must take at least 64 credits and must complete 60 percent of his/her chosen major (and/or minor) at Southwestern in order to earn a degree from Southwestern University.

All entering transfer students must meet Southwestern’s General Education Requirements common to all degrees set forth in this catalog (see “Degree Requirements”). Most transfer students need a minimum of four semesters worth of work to obtain a degree.

Non-Degree Seeking/Visiting Students
A student in good standing at another college may be considered for admission as a visiting (non-degree seeking) student. A visiting student application, along with official transcripts from all colleges attended, will be required of visiting students.

Non-degree seeking individuals interested in auditing a course should complete a visiting student application. Upon receipt of the application, the Admission office will consult with the instructor and the Registrar will determine if the class is audit-appropriate and has space for enrollment. Enrollment space is determined following the completion of the registration period for the course term. Non-degree seeking individuals pay a per-credit fee for the privilege of auditing a course. Individuals over the age of 50 pay a reduced fee. (See the Schedules of Special Fees and Deposits in the Catalog.) Courses designed to develop skills and that are “hands-on” in nature such as applied music, ensembles, studio art, or Fitness and Recreational Activity may not be taken as audit.

Non-degree seeking minors (i.e. a high school graduate who is not, or will not, be 18 at some point during their first year at Southwestern) who audit courses, must agree to abide by the policies established in the Southwestern Student Handbook and must have their legal guardian sign a waiver allowing the use of the campus network and computing resources.

Readmission
Any student who previously attended Southwestern for at least one regular semester must file an application for readmission at least one month prior to the beginning of the semester for which the student is seeking readmission. Students will be readmitted
on a first-come, first-served basis. A former student who has attended another institution is regarded as a readmit student and is subject to all rules governing readmit students.

If a student is dismissed or is ineligible to return (see Dismissal and Eligibility for Continuance) and is interested in readmission, the student will be required to complete a full-time semester (minimum of twelve (12) semester hours) of transferable college work from an accredited two- or four-year institution of higher learning and earn at least a 3.0 grade point average on a 4.0 scale.

Candidates for readmission will be reviewed by the Office of Admission, with academic and student life administration involvement to be sure each student returning is ready to successfully complete a Southwestern degree. Personal interviews in the Office of Admission are encouraged and will be required in some cases.

Other Admission Requirements Information
All college work for which an applicant has registered must be reported at the time of application. Applicants must present official transcripts of their entire academic record from all institutions in which they have been or are enrolled. Failure to make an accurate report of colleges attended will subject the student to disciplinary action, including possible suspension.

Veterans who have earned credits in approved military and service schools will be granted credit as indicated when such credit is appropriate to the degree programs of the students at Southwestern.

No person may register for, nor attend classes, unless the admission procedure has been completed.

Statement of Nondiscrimination
Southwestern University’s recruitment and admission of students, awarding of financial aid, and operation of programs and facilities are without regard to sex, race, color, religion, age, disability, national or ethnic origin, or any other impermissible factor. The University’s commitment to equal opportunity includes nondiscrimination on the basis of sexual orientation. The University does reserve the right to deny admission or readmission to an applicant for other factors without giving reasons and without prejudice to the student.

FINANCIAL AID
In a real sense, every student admitted to Southwestern receives financial aid; income from endowments and gifts pays a significant portion of the cost of each student’s education. Tuition and fees pay the balance. Friends of the University have made additional funds available for financial assistance, which is granted on the basis of both merit and need. Students should direct inquiries concerning financial assistance to the Financial Aid Office. The University has scholarships, grants, work opportunities and loans to assist students in meeting financial needs for their college education. The University administers a variety of programs, including the following:

State of Texas programs: Tuition Equalization Grant, College Access Loan.

For 2019-20 the Financial Aid Office administered more than $55 million in various kinds of financial aid for Southwestern students.

Students must reapply for all types of need-based financial assistance (scholarships, grants, work and loans) every year. To be considered for any type of need-based financial aid, current and prospective students should submit a Free Application for Federal Student Aid (FAFSA) beginning October 1 for the following academic year. This application is available at www.fafsa.gov, and the priority deadline for submission is March 1.

Merit Scholarships
Southwestern University awards a variety of scholarships based on factors such as academic merit or talent in the fine arts. The eligibility criteria and dollar amount for each scholarship vary with each scholarship program. Information about available scholarship programs may be found on the Financial Aid Office website at www.southwestern.edu.

Grants
Grants are awarded on the basis of financial need as determined by the submission of a FAFSA. Students should apply by March 1st to be considered for any grant funding through Southwestern.

Work Opportunities
A number of students are employed by the University in part-time positions in University offices, the library, residence halls, the dining hall and other similar areas.
Loans and Financing Options
Southwestern offers a variety of loan programs and financing options to assist families in their efforts to meet educational expenses. Current information on these options is available from the Financial Aid Office or at www.southwestern.edu.

Texas Guaranteed Tuition Plan (formerly the Texas Tomorrow Fund)
Families who have participated in the Texas Guaranteed Tuition Plan/Texas Tomorrow Fund may use these funds as a credit toward payment of tuition. To take credit for this program, a family must provide both the Financial Aid Office and the Business Office with a copy of the plan ID card. Upon review of the card and the type of plan selected, the appropriate amount will be allowed as credit toward payment of each semester’s bill.

Cost of Education
Students may receive a combination of sources and types of financial assistance that may not exceed the total cost of education, as determined by the Financial Aid Office. If a student receives a combination of aid funds that exceed the total cost of education, it will constitute an over-award. To remain in compliance with applicable federal, state and University regulations, the Financial Aid Office must make the appropriate adjustments to the student’s aid package to eliminate the over-award. Such adjustments may include the reduction of scholarship or grant assistance previously awarded to the student.

Institutional Tuition Charges
Students may receive Southwestern scholarship and/or grant assistance up to the total amount of institutional tuition charges. If a student receives Southwestern scholarship and/or grant assistance that exceeds institutional charges, the Financial Aid Office must make the appropriate adjustments to the student’s aid package to eliminate the condition. These adjustments may include the reduction of scholarship or grant assistance previously awarded to the student. In no case will a student receive any University funds in cash.

Full-Time Requirement
All scholarships and grants from the University require a student to enroll at the University on a full-time basis. If a student does not enroll on a full-time basis for a semester, then that student’s University scholarship or grant will be canceled for that semester. Exceptions to this policy are made in the following circumstances:

1) Graduating seniors in his or her last semester, when that student is taking only enough courses to graduate at the end of that semester.
2) Students who are approved to attend on a part-time basis for medical reasons. Requests for part-time attendance of this type must be made through the Center for Academic Success and Registrar.

In either of these cases, the University scholarship or grant is prorated based upon the number of hours in which the student enrolls.

Federal and state financial aid programs have their own regulations regarding full time attendance. Details regarding these regulations may be obtained in the Financial Aid Office.

Withdrawals
If a student withdraws from the University after the beginning of a semester for any reason, that student’s financial aid for that semester is subject to being prorated based upon the withdrawal date. All scholarships, grants and loans are affected, including those from federal, state and university sources. Upon being notified of the student’s withdrawal, the Financial Aid Office will review that student’s financial aid record to determine what scholarships, grants and loans must be returned to the appropriate programs. If it is determined that funds must be returned, the student’s account at the University will be updated to reflect the amount being returned to the program. The Financial Aid Office will send a written notice to the student’s home address, detailing any reduction of the student’s financial aid.

The amount of University funds to be returned is calculated based on the week in which the student withdrew. The refunds are determined as shown below:

<table>
<thead>
<tr>
<th>If the withdraw occurs:</th>

</tbody>
</table>
Federal and state programs have their own regulations pertaining to the calculation of the amount of funds that must be returned. Southwestern University evaluates withdrawn students in compliance with applicable federal and state regulations. Information about these regulations may be obtained in the Financial Aid Office.

**Satisfactory Academic Progress (SAP) Policy for Financial Aid Eligibility**

Students at Southwestern University are required to maintain satisfactory academic progress toward their degree in order to receive any financial aid (defined as federal, state, or institutional financial aid, to include merit scholarships, need-based scholarships, need based grants, loans, and federal/state work-study.) This progress is monitored using both qualitative and quantitative components of a student’s academic work at Southwestern. To maintain good standing, a student must maintain the minimum levels defined for each component.

The **qualitative** component considers a student’s cumulative grade point average (GPA) earned at Southwestern. Students must maintain a minimum cumulative GPA of 2.0 in their Southwestern University coursework.

The **quantitative** component considers the number of credit hours that are successfully completed by a student in comparison to the number of credit hours attempted by that student. This is also referred to as the pace of progression. Southwestern students must pass 80% of all credit hours attempted.

A course that is dropped during the period without record entry will not be considered as an attempted course. A course that is dropped after the period without record entry will be considered as attempted and not completed. Therefore, that course will count against a student’s completion rate.

The Financial Aid Office will review academic progress at the end of each academic year. During each review, the student’s cumulative qualitative and quantitative components will be considered, i.e., all SU grades and course credits attempted/earned by that student up to that point.

**Maximum Time Frame**

In addition to the qualitative and quantitative components, students must complete their degree at Southwestern within a certain number of credit hours. Students are allowed a maximum of 175 credit hours to complete their degree. Students who exceed the maximum hours will be considered ineligible for financial aid. All transfer hours will be counted toward the maximum timeframe. All semesters of enrollment will be considered, including semesters where the student did not receive financial aid.

**Failure to Meet the Standards of Satisfactory Academic Progress**

A student who fails to meet the SAP standards will be declared ineligible to receive financial aid. That student’s financial aid will be rescinded for the following semester. The student will remain ineligible for financial aid until (1) he/she attains the required SAP standards or (2) he/she submits an appeal for reinstatement of financial aid eligibility and such a request is approved by the Financial Aid Appeals Committee (the “Committee”)

The Financial Aid Office will send the student a written notification of the ineligibility, with information about how the student may submit an appeal to reinstate his or her financial aid eligibility.

When a student’s financial aid eligibility is reinstated by the Committee, the student will be placed on a probation status for one semester. Students on probation will be placed on an academic plan determined by the Committee. The student will be eligible to receive financial aid. After the conclusion of the probation semester, the student’s progress will be reevaluated. At that point, the student remains eligible to receive financial aid in the following semester if:

1) The student is meeting the SAP requirements OR
2) The Committee has determined that the student is successfully following the academic plan previously assigned to him/her.

If the student meets the SAP requirements after the probation semester, then he/she will be considered to be in good standing and will be eligible to receive financial aid in the following semester.

If the student does not meet the SAP standards after the probation semester, but the Committee has determined that the student is successfully following the academic plan assigned to him/her, then that student may continue receiving financial aid for the following semester.

If neither 1) or 2) are met, then that student will be considered ineligible for financial aid. The student’s financial aid will be rescinded for the following semester. The student will remain ineligible for financial aid until he/she attains the required SAP standards. A student who is ineligible for financial aid but who is eligible to return to Southwestern may re-enroll but is responsible for paying his or her own expenses during the period of ineligibility.

**Appeals**

A student who is declared ineligible may submit an appeal to have his or her eligibility reconsidered. Appeals for reinstatement must be made in writing to the Financial Aid Appeals Committee. Appeals must be made by the deadline indicated on the written notice of ineligibility sent to the student. The written appeal must include (1) the reasons why the student failed to meet the SAP

7
requirements and (2) what has changed that will allow the student to meet the SAP standards at the next evaluation. A student may request that his or her academic records and any extenuating circumstances be reviewed. Special circumstances may include, but are not limited to: illness or injury of the student, death of a close family member or similar hardship circumstances, change in major, seeking to earn more than one major, or transfer hours not counting toward a degree.

When a student finishes the spring semester without meeting the minimum requirements, summer school work may be considered to restore eligibility by the following fall semester.

The Financial Aid Appeals Committee will consist of the Associate Dean of Enrollment Services, the Dean of Enrollment Services, the Director of the Center for Academic Success, and the Director of Advising and Retention.

Dropped Courses
A course that is dropped during the period without record entry will not be considered as an attempted course. A course that is dropped after the period without record entry will be considered as attempted and not completed. Therefore, that course will count against a student’s completion rate.

Readmitted Students
In order for a readmitted student to be eligible to receive financial aid that student must meet SAP standards at the time of readmission. If a student left the university in an ineligible status then that student is still required to attain the required SAP standards before becoming eligible to receive financial aid.

Transfer Students
A transfer student who enrolls at Southwestern will be considered to be maintaining satisfactory progress for their first academic year of their enrollment. At the end of a transfer student’s first academic year of enrollment, progress will be reviewed in the same manner as for all other Southwestern students.

Transfer Credits and Credit by Exam
Credits earned through courses transferred from other institutions, through examination or testing (such as Advanced Placement (AP) or International Baccalaureate (IB) exams) or through dual credit programs will be considered when determining a student’s completion rate and maximum timeframe. Only the GPA earned on hours completed at Southwestern will be considered when evaluating the cumulative GPA.

CR/NC Grades
Grades of CR and NC will not have an impact on a student’s grade point average, and therefore will not affect that aspect of a student’s SAP status. When determining a student’s completion rate, a course with a grade of CR will be considered to be successfully completed and the associated credits will be included in the numerator and denominator of the completion rate calculation. A course with a grade of NC will not be considered successfully completed, and the associated credits will only be included in the denominator of the completion rate calculation. When determining the maximum number of credits attempted, credits associated with a CR or an NC grade will be included as attempted credits.

Withdrawals
A student who withdraws from Southwestern after a semester has begun will have his or her satisfactory academic progress standing re-evaluated at the end of the academic year in which the withdrawal occurred. A student who was in good standing prior to the withdrawal will remain eligible to receive financial aid until their standing is re-evaluated. If a student withdraws from Southwestern while on financial aid probation, he or she will be immediately declared ineligible to receive financial aid and must submit an appeal to have his or her standing re-evaluated.

Incomplete Courses
A course in which a student receives an “incomplete” grade will be counted against the student’s completion rate for the period being evaluated. An “incomplete” grade will not be included in calculating the cumulative GPA used for the period being evaluated. When the “incomplete” grade is replaced with a final grade in the course, that student’s SAP status will be re-evaluated to determine his or her final standing.

Failed Courses
A course in which the student receives a failing grade will be considered toward the cumulative GPA, semester hours attempted, and whether a student is making satisfactory academic progress.

Repeated Courses
The hours attempted/earned for a repeated course will be considered toward the cumulative semester hours attempted/earned. The grade earned in the most recent satisfactory completion of the course will be included in the cumulative GPA.

Academic Progress Standards Unique to Individual Programs
This policy indicates minimal academic progress standards for students to receive financial aid. It should be noted, however, that individual grant or scholarship programs may require different or higher standards than what are outlined in this policy. In those instances, the individual program standards will supersede the SU policy for that particular program only. The most notable
exception is the Tuition Equalization Grant awarded from the State of Texas. Contact the Financial Aid Office for more details regarding standards for individual programs.

**EXPENSES**

**Tuition**
At the beginning of each calendar year, Southwestern University’s Board of Trustees set the rates for tuition and other charges for the upcoming academic year. Below are the approved rates for the 2020-2021 academic year. The rates for the 2021-2022 academic year have not yet been determined and are subject to change until approved by the Board of Trustees at the beginning of calendar year 2021.

To further assure a diverse community of scholars, Southwestern provides scholarships, work opportunities and loan funds to students. Awards are based upon need and merit. See “Financial Aid” for information on available financial aid opportunities.

Southwestern welcomes the opportunity to be of service to the population of Central Texas. Participation by experienced, knowledgeable individuals enhances the educational environment. Therefore, individuals may enroll in University courses on a non-credit “audit” basis at a cost of $150 per credit, or $75 per credit hour if age 50 or over. Transcripts and other formal administrative procedures will not be maintained, thus eliminating unnecessary expenses associated with the enrollment of senior members of the student body.

Audit enrollment will be encouraged in courses designed to develop critical thinking capabilities and which occur in traditional classroom settings. Courses that are designed to develop skills, such as private music lessons and activity courses in the Sarofim School of Fine Arts, fitness and recreational activity courses in the Kinesiology Department, and laboratory courses are not open for audit enrollment.

**Room Charges**
Room charges reflect actual cost to the University of providing the services. The University is committed to assuring a full range of housing accommodations. Charges for the higher priced accommodations reflect the assigned square footage, location of lavatory facilities and climate control features. When modifications are made to housing accommodations due to need, the housing rates are adjusted appropriately. Room charges for the 2021–2022 academic year will be set in January 2021 by the Board of Trustees.

Fraternity Houses

Kappa Alpha (KA) $3,400 $6,800
Pi Kappa Alpha (PKA) $3,400 $6,800

Apartments

Dorothy Manning Lord Residential Center $5,435 $10,870
Grogan and Betty Lord Residential Center (per person)
- 2 bedroom $4,935 $9,870
- 1 bedroom $7,415 $14,830
Charlene Hamlin McCombs Residential Center (per person)
- 2 bedroom $4,360 $8,720
- 2 bedroom double-occupancy $2,665 $5,330

Room accommodations are assigned for the full academic year, except when a student withdraws for health or academic reasons, is in an approved study abroad program, or when a student graduates at the end of the fall semester. Continuing students who leave the residence halls mid-year to move to private accommodations will be held liable for spring semester room charges. Returning students failing to cancel a room reservation made for the fall semester by July 1 may be held liable for fall semester room charges.

Board Charges

University Food Services, through contract with Sodexo, provides a complete meal service for resident and nonresident students. Since residence halls and the McCombs Residential Center do not have adequate facilities for food preparation, all resident students living there must purchase a meal plan. Resident students may select from any of the meal plans listed below, except the five-meal plan. Students who live in the Grogan and Betty Lord or the Dorothy Manning Lord Residential Center, a Fraternity House, or off campus may choose from any of the meal plans or choose to not have a meal plan at all.

Additional meals may be purchased at posted prices. The menu selections are designed to afford students a range of choices that encourage a nutritionally balanced diet as well as items that may respond to a variety of individual tastes. Special diets can be provided upon the recommendation of a medical doctor. Meal rates for the 2021–2022 academic year will be set in January 2021.

*State sales tax is included.
Traditional Meal Plans (15, 12, 9, or 5 Meals per week) –
Unused meals on the Traditional Meal Plans do not transfer from week to week. Meals can only be used for the students to which the plan belongs.

The 5 meal plan is only available to students living in the Dorothy Manning Lord Residential Center, the Grogan and Betty Lord Residential Center, fraternity houses, and off campus.

Block Plans (165 and 140 meals per semester) –
Unused meals on the Block Plans do not transfer from Fall to Spring semester. At the end of each semester, any unused meals are non-refundable and will not be transferred over to the next semester or the new academic year. Meals can only be used for the student to which the plan belongs.

Pirate Buc$ –
Pirate Buc$ can be used anywhere on or off campus that accepts pirate cards. Pirate Buc$ will carry over from semester to semester and any balance will be refunded when the student graduates or leaves Southwestern.

Dining Dollars –
Dining Dollars can only be used on campus at the Commons or The Cove. Dining Dollars will carry over from Fall to Spring semester, but must be used by the end of the Spring semester. Any unused Dining Dollars at the end of the Spring semester will be forfeited.

Deposits
Enrollment Deposit - A prepayment of $250 is required of all new students at the time of pre-registration for the fall semester. The $250 assures the student of a place in the class and will be applied to the semester charges at the time of registration or confirmation of pre-registration. The prepayment is non-refundable. All student charges must be paid in full before pre-registration.

Orientation Deposit – A deposit of $200 is required of all new students at the time of pre-registration for Sprog Orientation. A charge of $200 for the event will be on the fall bill and the deposit will be credited to pay for that fee.

Housing Deposit - A one-time housing deposit of $250 is required of all students wishing to reside in the residence halls. Continuing students are assigned in the spring of each year in the manner established by the Director of Residence Life and Housing. The housing deposit must be made or confirmed by the Business Office prior to the deadline set each spring. The housing deposit assures the assignment of a housing accommodation and provides compensation to the University in the event of damage to the facilities or cancellation of a housing reservation.

All applicable housing deposits are refundable upon completion of a University degree or at the time a student formally withdraws from the University. In the event that a student leaves the residence hall for other than academic/health reasons, to study abroad, or graduation or at the end of an academic year, the deposit will be forfeited. Additionally, students who leave the residence halls between the fall and spring semesters to move to private accommodations will be held liable for spring semester room charges. Returning students who have reserved a room during spring room sign-up for the following fall semester must cancel in writing with the Office of Residence Life by June 1 in order to receive a refund of the housing deposit. Students who are graduating, transferring, studying abroad or formally withdrawing from the University who fail to file an Intent to Vacate form by December 1st will forfeit the housing deposit. All students who live in the residence halls during the fall semester will forfeit their housing deposit if they return to Southwestern and cancel their residence hall room reservation and live elsewhere during the spring semester. In addition, students who cancel after December 1 will be held accountable for the entire spring semester room charge. In the event that any fees or charges are due to the University upon withdrawal or graduation, the deposits will be applied to the balance due.

Schedules of Special Fees and Deposits
Students registered for 12-19 credits will pay full tuition. Special fees and deposits for the 2021–2022 academic year will be set in January 2021 by the Board of Trustees.

Advanced standing examination .................................................................$50.00
Audit charge (per credit) .................................................................$150.00
Audit charge – Individuals over 50 years old (per credit) ...........................................................................$75.00
Motor Vehicle registration (per semester) .............................................................................$100.00
Tuition charge per credit (less than 12) .........................................................................................$1,880.00
Summer 2020 tuition charge (per credit) .................................................................................$395.00
Final examination out of schedule ...............................................................................................$50.00
Enrollment deposit (prepayment of tuition – new students) ........................................$250.00
Payment Options

1. In Person at the Business Office – Cash, checks, money orders, or cashier’s checks are accepted at the Business Office, which is located on the first floor of the Cullen Building.

2. By Mail – Checks, money orders, or cashier’s checks are accepted by regular mail at the following address:
   Southwestern University, P.O. Box 770, Georgetown, TX 78627-0770

3. Online Payments via the CashNet Payment Portal -
   - Credit Card or ACH Payments –
     Credit card and ACH payments are accepted online through a student’s WebAdvisor Account in the CashNet Payment Portal. All credit cards are accepted with a 2.75% processing fee. Electronic check/ACH payments are accepted with no fee.
   - SU Payment Plan –
     SU provides an interest-free payment plan option that is integrated with the student account balance. The payment plan is term specific and has a maximum of five monthly payments for each term depending on your enrollment date. There is a nonrefundable $25 enrollment fee that is due upon enrollment. Enrollment in the SU Payment Plan is done through the CashNet Payment Portal.

Special Fees

Southwestern University has established a number of off-campus academic learning experiences designed to broaden the background of student scholars. Because of special costs associated with some of the programs, special fees may be assessed on a program-by-program basis and are not refundable if the student drops the course. These fees reflect and are specifically set to cover only direct costs applicable to each individual program or adverse currency exchange rates.

Billing & Payment of Accounts

In compliance with Family Education Rights and Privacy Act (FERPA), Southwestern University cannot release a student’s educational record, including student account and financial information, to any person unless authorized by law or unless the student consents to the disclosure in writing. Students must complete the FERPA Information Release Form and indicate by name the authorized parents/persons that they give employees at Southwestern University permission to talk to about his/her student account and other financial information. This form is available in the Office of the Registrar and on the website.

The University electronic billing schedule and payment due dates can be found on the Business Office website in the Student Accounts section located at: https://www.southwestern.edu/business-office/student-accounts/. Southwestern sends electronic bills (e-bills) that are posted on the student’s CashNet Payment Portal which is accessed through the student’s WebAdvisor account. In order for parents or other individuals to access e-bills, make payments, sign up for the SU payment plan, and to receive emails and text notifications, the student must “Send a Payer Invitation” to the individual and give them permission through their CashNet Payment Portal. Fall semester bills are generated after registration and financial aid awards have been completed and a reminder Fall bill is generated in mid-July. Spring semester bills are generated in November. Students may receive additional bills for charges accrued during the semester such as traffic tickets, library fines, residence hall damages and/or course fees.

At the time of registration for any semester or term, every student is required to accept the Southwestern University Payment Terms Agreement. If the Agreement is declined, registration will not be allowed.

Enrollment in the SU Payment Plan is done through the CashNet Payment Portal.

12
Late Payment Fee Policy

Late Payment Fee
An initial late payment fee of $100 will be charged to unpaid student accounts with no payment arrangements made by the payment deadline each semester. In addition, students with past due balances may be dropped from all current and future class enrollment for non-payment. Students with past due balances will not be permitted to move into on-campus housing for the fall semester. Likewise, students already in on-campus housing during the fall semester who have past due balances for spring will be notified prior to the end of the fall semester that they will be required to move out at the end of the term and not permitted to return to housing unless immediate payment arrangements are made.

In calculating the past due balance, confirmed financial aid, established payment plan amounts, verified VA benefits, Texas Tomorrow funds, and other substantiated credits will be considered and deducted from the actual student account balance. Students and families with unique payment circumstances must contact the Business Office to confirm payment arrangements prior to the due date. Late payment fees will be assessed on accounts that have not been paid or do not have sufficient financial aid, other credits, or payment arrangements to cover the total institutional charges owed.

Pre-Registration Holds
Prior to pre-registration for the next term, if any estimated funds or other credits are still not received as payment on the student account or new charges exist that result in an unpaid balance of $300 or more, the student account will be put on hold and pre-registration will not be allowed until the estimated funds are received or the unpaid balance is paid. While on hold, the student will also not be able to obtain a transcript.

Removal of Course Registration for Non-Payment
The payment deadline is communicated in various ways including on the Business Office website, student e-bills, and emails sent directly to the students’ SU accounts. If payment arrangements have not been completed by the stated deadlines, the University will proceed with removing a student from all registered classes for the semester, either as a cancellation or withdrawal based on the timing as indicated below.

Course Cancellation for Non-Payment
A cancellation occurs when a student is removed from all classes for non-payment prior to the first day of the semester. For a cancellation, a student will receive a full refund of any tuition and fees paid toward the future semester and all financial aid will also be cancelled. Upon resolving the original unpaid student account balance, the student may register again for classes before the end of the add period. Please note that registration for classes is based upon available seats so there is no guarantee the original class schedule can be reinstated.

Course Withdrawal for Non-Payment
A financial withdrawal occurs when a student is removed from classes for non-payment on or after the first day of class. If the deadline to add a class has not passed, upon resolving the original unpaid student account balance, the student may register again for classes without a guarantee of reinstatement of the originally registered courses. If the student who is financially withdrawn for the semester does not re-register, the student will still be responsible for paying the applicable percentage of tuition and fees. Student account balances are considered to be an educational loan and therefore are not dischargeable under the United States Bankruptcy Code.

Refund Schedule
Students who are allowed to withdraw all or part of their registration will be granted a reduction of a portion of the original charges according to the schedule shown below. Questions regarding the University’s refund policies should be addressed to the Business Office. A student who is permitted to change courses by dropping and adding one or more courses will be given full...
tuition credit for the courses dropped to be applied toward the tuition charges for the courses added, if the drop and add occur simultaneously. The date the withdrawal or change in class load is received by the Office of the Registrar determines refunds as shown:

**Tuition:**
- During first full week of classes: 80% credit
- During second full week of classes: 60% credit
- During third full week of classes: 50% credit
- During fourth full week of classes: 40% credit
- During fifth full week of classes: 30% credit
- After the end of the fifth full week of classes: None

**Board:**
- 75% of unused portion of the base meal plan is refunded.
- Dining Dollars are also refunded at 75%, only if they have not already been used.
- Pirate Buc$t refunds must be requested in writing from the Pirate Card Office.

**Room:**
- No refund is made on room charges, even if a student is asked to vacate an assigned residence hall room for disciplinary reasons.

The Tuition Refund Plan, offered by A.W.G. Dewar Insurance, provides coverage for the university charges of tuition, room and board when a student is required to withdraw from school due to a medical or mental health illness before the semester is complete based upon a doctor’s certification. This Tuition Refund Plan is a private insurance program that supplements Southwestern University’s standard refund policy by offering up to 75% coverage for withdrawals due to medical illness or injury and up to 75% for mental health withdrawals in accordance with the policy terms and conditions. Participation in the Tuition Refund Plan offered by A.W.G. Dewar is entirely optional and the University's refund program is applicable whether or not you enroll in the plan.

**Students Called to Active Military Service**
If a student withdraws because the student is called to active military service, the effective date of withdrawal will be used to calculate financial aid and tuition refunds, in accordance with published institutional, state, and federal refund policies as applicable.

**Withdrawals and Financial Aid**
A student’s institutional and federal financial aid is subject to being reduced in the event of that student’s withdrawal from classes during a semester. Consult the “Financial Aid” section of this catalog for information regarding the impact of a withdrawal on student’s financial aid award.

**Part-Time Status and Financial Aid**
Most financial aid and University merit scholarship programs require a student to enroll at the University on a full-time basis. Consult the “Financial Aid” section of this catalog for information about how this policy affects students who enroll on a part-time basis.
ACADEMIC DEPARTMENT CORRECTIONS:

Education Department update
The Bachelor of Science in Education degree and the Bachelor of Music degree with a major in Music Education meet State of Texas certification requirements for public school teachers in the teaching fields listed in the catalog. Southwestern University may only recommend teacher candidates for licensure in the State of Texas. Students seeking licensure in other states should complete the licensure process in Texas. Once certified in Texas, graduates can apply for certification in another state following that state’s reciprocity/out of state certification guidelines.

Mathematics and Computer Science Department update
52-154 CALCULUS I. This is a first course in single variable differential and integral calculus. Topics include limits, continuity, differentiation, integration, the Fundamental Theorem of Calculus, the method of substitution, and applications (e.g., optimization, related rates, and consequences of the Mean Value Theorem). Prerequisite: Mastery of high school-level pre-calculus (algebra, trigonometry, exponential and logarithmic functions). (Fall, Spring ending in Spring 2021) (NS)

Theatre Department update
72-923 THEATRE CAPSTONE. This course, normally taken in the spring of the senior year, involves the students’ preparation for their Capstone project. In addition to a theatre production, students and their faculty mentors will regularly meet to assess progress on and evaluate the results of their project.

COURSE DESCRIPTIONS

COLLEGE YEAR IN ATHENS STUDY ABROAD
The following courses are for CYA (College Year in Athens) study abroad students only. For more information, please visit CYA’s website at www.cyathens.org or contact them at info@cyathens.org or (617) 868-8200.

Anthropology - ANTH (CYA)
05-364, 05-464 ANTHROPOLOGY OF THE CITY: EXPLORING MODERN ATHENS. This course has a three-pronged approach to exploring Athens. The first is general: we will study the "city" as both a concept and a material reality, and the theories and issues anthropologists bring to the study of the city. The second takes us to the specific: how can we apply those ideas to the city we will be located in, to Athens? The third brings us the tools necessary to collect the data for that exploration: the qualitative methodologies used in the social sciences to study the spaces, people, practices, sounds, tastes, ideas, fields of power, and more that make up everyday life in this incredible city you'll be making your temporary home. We will be systematically studying Athens in its material reality, in the experiences it shapes, and in the experiences, people shape it with. We will be engaging with how the city intersects with gender and sexuality, inequality, migration, sustainability, consumption, capitalism, politics, activism, state power, housing and homelessness, art, pleasure, and more. This course will require you to be brave and open-minded, in interacting with strangers and new places. You will try new things you end up loving and other new things you end up greatly disliking. By learning to live in and understand another culture, you will also learn more about yourself and your own prejudices and predispositions. Winter Intersession. (ANTH 315, ANTH 415)

05-344, 05-444 THE ANTHROPOLOGY OF FOOD IN GREECE. The “Mediterranean Diet” has received a great deal of attention as a dietary pattern with significant health benefits. To think of diet in this way, however, is to think of food as simply nutrition. The rich symbolic life of food, its place in social relationships, its importance to ritual, its connection to identity, its deliciousness: all of these are lost if we focus on diet as diet alone. In this course, we will look at the development of the Mediterranean diet in Greece, as well as other contemporary food practices. We will address issues of globalization, food tourism, food security, “local”, “traditional,” and “slow” foods, and much more. When not in the classroom, we will visit farms, vineyards, groves, restaurants, markets, museums, kitchens, sweet shops, cooperatives, NGOs, and festivals in our quest to experientially study food in Greece. This is a hands-on course in terms of tasting and experiencing food! Summer Session. (ANTH 325, ANTH 425)

05-354, 05-454 TASTING CULTURE: NORDIC AND MEDITERRANEAN FOOD, TRADITION, AND NUTRITION. We eat to live. But food is not just about survival, it is about so much more: health, pleasure, identity, symbolism, class, memory, sensation, and on and on. We express who we are
through our food. But how we eat is also shaped by other forces: doctors’ advice, economic ability, government regulations, climate, history, and many other factors often invisible to us in our everyday lives. Over four weeks we will explore two distinct cultural contexts in Europe—Denmark and Greece—allowing us to understand both the commonalities and the differences that such forces bring to food and cuisine, as well as people’s imagination and inventiveness in creating something to eat. The course begins in Copenhagen, Denmark, the emergent capital of New Nordic Cuisine, where tradition is being reinvented at levels both every day and haute cuisine. To balance our understanding of urban food ways, we will also spend a couple of days on the rural island community of Samsø, known for quality produce and sustainable living. The course continues in Athens, Greece, a country associated with the Mediterranean diet and a strong cultural history of knowledge and attention to food, with a few days on the island of Naxos as well, to explore the locality of food traditions and production. These four locations will enable to do comparative research and both explore and deconstruct the categories of new/old, urban/rural, north/south, global/local, tradition/modernity, and change/continuity. Along the way, the medicalization of diets, changes in agriculture, food tourism, food security, nationalism, locality, sustainability, and more will be addressed. When not in the classroom, we will visit farms, vineyards, groves, restaurants, markets, museums, kitchens, sweet shops, cooperatives, NGOs, and festivals in our quest to experientially study food, and taste everything that comes our way. By taking this class, students will develop a sound understanding of how food is studied as an expression of society and culture, and hands-on training in the methodologies used to examine food and food practices. Summer Session. (ANTH 326, ANTH 426)

05-313, 05-413

THE CULTURE OF MODERN GREECE. Students studying abroad are already like anthropologists, trying to make sense of the rules of the society around them so that they can adapt to the rhythms and practices of their new, temporary home. This class gives students the tools needed to fully engage with and understand life in Greece, offering the history and social context needed to give their experiences greater depth and meaning. We will learn the methods anthropologists use to study societies, and employ them to investigate Greece in ways students might not otherwise find on their own. Our explorations are broad, covering religion, food, immigration, Europeanization, family, youth culture, economy and politics, race and ethnicity, gender and sexuality, and more; we will treat these topics as overlapping realms that shape everyday experience. The aim is for students to gain an understanding of contemporary society in Greece, and a developing awareness of their own cultural conditionings and ethnocentrism. Fall Semester. (ANTH 333, ANTH 433)

05-323, 05-423

GENDER & SEXUALITY IN MODERN GREECE. How do social scientists approach the subjects of gender and sexuality? What can students learn about life in modern Greece when we apply this lens? This course combines readings from across the social sciences and first-hand participant-observation research to answer these questions. We’ll be discussing gender and sexuality in their intersections in Greece with kinship, religion, economy, national and international politics, technology, medicine, modernity, ethnicity, race, and more, giving us a particular insight into important aspects of change (and continuity) in this region. Students will be also be introduced to the methodologies of anthropological research, providing you with the tools to enrich your experience in Greece through a focused, curious, and analytical engagement with the cultures you’re immersed in here (and with your own position here as a student/traveler/foreigner/gendered person), and to explore aspects of the society first-hand that you might not find on your own. Spring Semester. (ANTH 356, ANTH 456)

05-333, 05-433

SERVICE LEARNING: SOLIDARITY & SOCIAL MOVEMENTS IN GREECE. Greece has seen the development of a number of social movements and “solidarity” movements in recent years, in the face of the difficult social conditions after the 2009 sovereign debt crisis and the austerity measures which followed. Some of these efforts are new and creative responses, while others have long histories in Greek society and politics. This course examines the roles that solidarity and social movements, social justice goals, and civil society development play in contemporary Greek society. What are the social problems currently being struggled with in Greece? In what ways have people responded? Students each volunteer for such organizations, on topics ranging from the environment, refugee housing, food security, human rights and equality, and more, and their volunteer experiences are integrated into the course, providing an experiential dimension to the questions we will be exploring together. Spring Semester. (ANTH 357, ANTH 457)

05-946

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location
of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (ANTH 398)

05-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (ANTH 399)

Archaeological Excavations - ARCX (CYA)

18-314, 18-414 EXCAVATIONS AT AIXONIDAI HALAI - VOULA FIELD SCHOOL. The Winter Intersession evolves around the physical excavation of a site near the modern Athenian suburb of Voula, which, in antiquity, was associated with Aixonides Halai, one of the ten demes (municipalities) of ancient Attica. The course consists of two main teaching components. The first is an on-site excavation, and lab-work focusing on experiential learning, aimed primarily at introducing students to aspects of archaeological fieldwork and all related elements of current research methodology and theory, under the supervision of trained professionals. The second consists of class lectures, which enhance the “hands on” experience by placing it within the proper wider historical and otherwise setting/context. For the on-site excavation portion of the course, students work under the supervision of archaeologists from the Greek Ministry of Culture and the Greek Archaeological Service. Classes meet at CYA each afternoon following the morning excavation sessions. In addition to the above, the course also includes visits to nearby archaeological excavation sites as well as to other relevant sites and museums of historical importance in Athens and Piraeus. Winter Intersession. (ARCX 320, ARCX 420)

18-324, 18-424 EXCAVATING IN THE AEGEAN - DESPOTIKO FIELD SCHOOL. The course introduces students to archaeological fieldwork methods and theory through active participation in the systematic excavation of the sanctuary of Apollo situated on the uninhabited islet of Despotiko, the most important Cycladic sanctuary after Delos. The last week’s class takes place at the Archeological Museum of Paros where students will be trained in processing finds. The first three weeks are on-site learning basic methods of excavating, measuring and recording. Students gain comprehension of the purposes of an excavation and learn how to place the sanctuary and its material culture in a theoretical context. Summer Session. (ARCX 321, ARCX 421)

18-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (ARCX 399)

Archaeology - ARCH (CYA)

01-383, 01-403 INTRO TO DIGITAL ARCHAEOLOGY. Methods of documentation and analysis in archaeology have changed drastically in the last decade. The course provides students with theoretical knowledge on the state of the art in digital archaeology, including GIS, remote-sensing technologies, tablet-based field recording, data management, and, last but not least, theoretical debates on the usefulness of digital methods. Students also acquire real-world skills: they create 3D models of artifacts and trenches; they create aerial maps using drone photos; they learn how to set-up and use a Total Station on the field; and they digitally illustrate 2D architectural features using geo-rectified photos. Fall Semester. (ARCH 310, ARCH 410)

01-313, 01-413 AEG/ANC GK ART & ARCHAEOLOGY. A survey course, with extensive on-site teaching, covering the art and archaeology of Greece from prehistoric times to the end of the Classical period. Its purpose is to introduce the student, using whenever possible the primary sources (monuments, art and artifacts) of the ancient civilizations of the Aegean and Greece: Minoan, Mycenaean, and Classical Greek. Classroom lectures and the readings provide the historical context for the monuments and artifacts students are instructed on. Cannot be taken with 01-323 (ARCH 361). Fall and Spring Semesters. (ARCH 331, ARCH 431)

01-334, 01-434 WHEN EGYPT MEETS THE AEGEAN. The course explores the relationship of Egyptian and Greek cultures in the Bronze Age within the wider Eastern Mediterranean context. Focal points of the course are the Egyptian Collection in the National Archaeological Museum in Athens, Akrotiri in Santorini (the Pompeii of the Prehistoric Aegean), Crete, and Mycenae. Students have the very rare opportunity to experience hands-on activities and behind the scenes visits which allows them to comprehend more deeply the culture through actual contact with artifacts. In addition, distinguished scholars and specialists of Greek archaeology share their academic interests and excitement. Summer Session. (ARCH 347, ARCH 447)

01-323, 01-423 THE TOPOGRAPHY AND MONUMENTS OF ATHENS. Please note: This course is a detailed archaeology course intended for students with some background in archaeology and/or ancient history. This exclusively site-based course gives a comprehensive overview of the topography, archaeology and history of Athens, focusing particularly on the great monuments of the Classical and Roman city. It explores every major site - and many minor ones- paying attention to their physical
setting, architectural and archaeological characteristics, and position in the political, religious and social lives of the Athenians. Thucydides put into the mouth of Pericles the words, ‘Future ages will wonder at us, as the present age wonders at us now.’ Future ages did indeed wonder at the buildings of the ancient city, and this course traces the rediscovery of Athens’ antiquities from the earliest modern travelers to Greece in the 15th century, through to the development of scientific archaeology in the 19th, and indeed looks into the role of archaeology in Athens from the foundation of the Modern Greek state up to the present day. Students gain a wide range of key skills during the course: topographic interpretation from maps and site plans with an understanding of how landscape affects site development; research skills from assessing publications from excavation reports to antiquarian rare books and archival or photographic collections; oral presentation skills through preparing individual reports presented on site to the group; as well as gaining an ability to use the evidence of archaeology, architecture, inscriptions, and coins in the construction of historical arguments.

Prerequisite: Background in archaeology and/or ancient history. Cannot be taken with 01-313 (ARCH 331). Fall and Spring Semesters. (ARCH 361, ARCH 461)

01-363, 01-463 AEGEAN PREHISTORY: THE BRONZE AGE. This course provides an exploration of the Aegean prehistory from the Neolithic times up to the beginning of the Iron Age, focusing primarily on the Bronze Age cultures that flourished in the region. The archaeology of the islands and the mainland will be placed within the greater Eastern Mediterranean cultural sphere in order to achieve an in-depth survey of the various aspects of political, artistic, technological, religious, administrative and social dynamics of the Bronze Age people. Students are introduced to theoretical and interpretative methodologies, current debates as well as old and modern approaches of studying the available corpus of archaeological data. At the same time, the results of new and on-going research projects and excavations are discussed offering a fresh look on the large number of sites in the areas of interest. Finally, students are able to experience site and museum visits as well as hands-on activities and study closely the construction, function, circulation and consumption of the abundant material culture of the Aegean Bronze Age. Prerequisite: Background in archaeology and/or ancient history. Cannot be taken with 01-313 (ARCH 331). Fall Semester. (ARCH 367, ARCH 467)

01-373, 01-473 ANCIENT MATERIALS & TECHNOLOGIES. The course investigates a range of processes through which raw materials – e.g. clay, wood and marble - were shaped into objects such as the Dipylon Vases, Kouros sculptures, temple friezes, jewelry. Students examine a range of objects of Greek origin, from Neolithic to Hellenistic and Roman times and beyond, focusing on techniques and materials that were employed to produce both objects that featured in people’s daily life as well as luxury commodities. Much of the course is taught outside the classroom, taking advantage of the museums and archaeological sites. Students are able to discover how skilled Greek societies were in transforming raw materials into functioning objects, and gain an understanding of the value of the material remains within their original Greek context. Although this is not a laboratory-based course, it touches upon analytical techniques employed to investigate some of the most commonly used materials. Spring Semester. (ARCH 372, ARCH 472)

01-394, 01-494 THE DAWN OF GREEK ART: FROM HOMER TO THE PERSIAN WARS. This course explores the early development of Greek art (ca. 750-480 BCE) against the backdrop of the formative period of Greek Civilization: the Rise of the polis, the Age of Colonization, and the emergence of Athens as a cultural and artistic center. Summer Session. (ARCH 392, ARCH 492)

01-483 ARCHAEOLOGICAL DRAWING. For students planning to pursue a career in archaeology, this course develops basic techniques in the drawing of pottery and other archaeological finds, such as bone, metal, stone and figurines. The course is important, as students first learn the fundamentals of observing the objects before they learn how to draw them. They can then apply and expand on these fundamentals when working with newer recording technologies such as digital recording, and 3-D scanning and imaging. Indeed, to make the imagery work students need to know how to see an object, which they learn from drawing. The skills acquired have enabled students to work at many excavations, e.g. in Egypt, at Troy, and in the Athenian Agora. Enrolment limited to eight students. Spring Semester. (ARCH 416)

01-946 INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (ARTH 398)
Architectural History - ARTCT (CYA)
19-313, 19-413
BYZANTINE ART AND ARCHITECTURE. The course aims to explore the Byzantine artistic production from its origins in the catacomb frescoes of second-century Rome and the Syro-Paleaite region, to the art produced during the last centuries of the empire. It aims to provide an introduction to the varied physical remains left behind by the Byzantines: architecture (urban as well as rural), painting (mural decoration, icon painting and manuscript illumination), luxury objects of the so-called minor arts as well as objects destined for every day, mainly secular, use. The study of the material is not confined to the examination of the evolving ‘styles’ and ‘iconographies’ –the pictorial languages of these artefacts- but hopes to survey the role of the image in Byzantium as a complex product of specific historical, theological and broader political influences considering its use both in religious and secular contexts, matters of gender and patronage as well as the cross-cultural exchanges in the Mediterranean basin during the Byzantine era. Part of the course examines the various ways through which the Byzantine culture influenced the new humanism of the early-Renaissance Europe as well as modern perceptions of Byzantium. Class sessions combine lectures, in-depth discussion on primary texts and focus on visual and literary material in order to provide a holistic introduction to Eastern Mediterranean culture during the Byzantine period. Besides the lectures, guided visits to Byzantine monuments are part of the course. The monastery of Hossios Loukas, a functioning establishment to date with lavish mosaic decoration dating back to the 11th c., and the castle-state of Mistras in the Peloponnese with its numerous frescoed churches and chapels, have been included in the Peloponnese field trip itinerary. To gain a broader first-hand understanding of the agenda of the image in Byzantium, visits to Hagios Dimitrios, the Acheiropoietos and Hagia Sofia in Thessaloniki are part of the northern Greece field trip. Finally, the course aims to explore, in three visits, the Byzantine collections, the museums and the surviving Byzantine churches of Athens. Spring Semester. (ARTCT 364, ARTCT 464)

19-323, 19-423
ANCIENT GREEK ARCHITECTURE. A study of the major architectural currents in the ancient Greek world from the 6th century B.C. to the 2nd century A.D. as these manifest themselves in the surviving architectural monuments of Athens. In order students may profit as greatly as possible from first-hand, visual contact with the monuments that are the object of their study, almost all sessions of the course are held on the Acropolis, the Agora, and other major Athenian sites. Cannot be taken with 01-323 (ARCH 361) Spring Semester. (ARCH 366, ARTCT 466)

19-301, 302, 303, 304
SELECTED TOPICS. May be repeated with change in topic. (ARCH 399)

Art History - ARTH (CYA)
20-313, 20-413
PERFORMING (IN) ATHENS: EXPLORING THE CITY THROUGH THEATRE AND PERFORMANCE. Athens is considered one of the most vibrant theatre scenes in Europe. We will focus on current practices in theatre and performance mainly in Greece, but also in Europe and the United States. We will undertake a critical, historical and creative overview of theatre and performance making in periods of crisis, in Europe and the United States, and examine how contemporary Greek artists address issues such as: theatre and society, the human body/the body politic, and the stage and the city. We will also perform a slight backtrack into the ancient past and the beginnings of theatre in its birthplace. The course will include visits to different theatres and other performance spaces: a theatre in a train, a 19th century prosenium theatre, underground performance spaces, together with backstage tours and talks with artists. This course is for students in the Arts and Humanities and anyone interested in theatre and performance. Fall Semester. (ARTH 320, ARTH 420)

20-323, 20-423
PHOTOGRAPHY AND ARCHAEOLOGY: THE ART OF DOCUMENTATION. The study of the relationship between photography and archaeology requires a multi-disciplinary approach. We must be practitioners and theorists, researchers and analysts, approaching archaeological photography from a variety of angles. Through lectures and viewing the work of major figures in the field, you will become familiar with the development of the medium alongside the discipline of archaeology. Through site visits and hands-on experience with specialized equipment, you will gain insight into the mechanics of photography and how it shapes vision. Through examining case-studies and conducting your own research you will discover how photography has often held up a mirror to the greater cultural contexts of archaeology. Spring Semester (ARTH 323, ARTH 423)

20-334, 20-434
THE PRESENT PAST: RE-IMAGINING GREECE THROUGH HERITAGE. The course focuses on a journey – literally and metaphorically – into aspects of Greek (and also world, as defined by UNESCO) heritage. We will delve into the past, as a complex and ever-present entity and unravel the constituent elements of cultural heritage in contemporary Greece. Among others, we will trace the
presence and influence of the following: the classical Greeks and the Romans; the Knights; the Ottomans; the Italians in the S Aegean islands; the vernacular and its roots; the natural and the cultural; current receptions of the past; tourism management and the quest for authenticity in Greek sites and monuments; Greek heritage as it relates to world heritage. The aim of this course is to help you form a solid and educated opinion with regard to what constitutes Greek heritage in the 21st century as well as how we can all contribute, as educated travelers, to the preservation and dissemination of this cultural knowledge. Summer Session. (ARTH 356, ARTH 456)

20-343, 20-443  
ANCIENT GREEK SCULPTURE. A course designed to give students first-hand knowledge of sculpture of the Archaic, Classical, and Hellenistic periods. More than half of the class sessions take place in the National Archaeological, Acropolis, Kerameikos, Agora, and Piraeus museums. Students are also able to take advantage of field trips to Delphi, and Olympia. Fall and Spring Semesters. (ARTH 362, ARTH 462)

20-353, 20-453  
BYZANTINE ART AND ARCHITECTURE. The course aims to explore the Byzantine artistic production from its origins in the catacomb frescoes of second-century Rome and the Syro-Palaistine region, to the art produced during the last centuries of the empire. It aims to provide an introduction to the varied physical remains left behind by the Byzantines: architecture (urban as well as rural), painting (mural decoration, icon painting and manuscript illumination), luxury objects of the so-called minor arts as well as objects destined for every day, mainly secular, use. The study of the material is not confined to the examination of the evolving 'styles' and 'iconographies' – the pictorial languages of these artifacts but hopes to survey the role of the image in Byzantium as a complex product of specific historical, theological and broader political influences considering its use both in religious and secular contexts, matters of gender and patronage as well as the cross-cultural exchanges in the Mediterranean basin during the Byzantine era. Part of the course examines the various ways through which the Byzantine culture influenced the new humanism of the early-Renaissance Europe as well as modern perceptions of Byzantium. Class sessions combine lectures, in-depth discussion on primary texts and focus on visual and literary material in order to provide a holistic introduction to Eastern Mediterranean culture during the Byzantine period. Besides the lectures, guided visits to Byzantine monuments are part of the course. The monastery of Hossios Loukas, a functioning establishment to date with lavish mosaic decoration dating back to the 11th c., and the castle-state of Mistras in the Peloponnese with its numerous frescoed churches and chapels, have been included in the Peloponnese field trip itinerary. To gain a broader first-hand understanding of the agenda of the image in Byzantium, visits to Hagios Dimitrios, the Acheiropoietos and Hagia Sophia in Thessaloniki are part of the northern Greece field trip. Finally, the course aims to explore, in three visits, the Byzantine collections, the museums and the surviving Byzantine churches of Athens. Spring Semester. (ARTH 364, ARTH 464)

20-363, 20-463  
ANCIENT GREEK ARCHITECTURE. A study of the major architectural currents in the ancient Greek world from the 6th century B.C. to the 2nd century A.D. as these manifest themselves in the surviving architectural monuments of Athens. In order students may profit as greatly as possible from first-hand, visual contact with the monuments that are the object of their study, almost all sessions of the course are held on the Acropolis, the Agora, and other major Athenian sites. Cannot be taken with 01-323 (ARCH 361). Spring Semester. (ARTH 366, ARTH 466)

20-373, 20-473  
THE ART AND CRAFT OF CURATING: MAKING SENSE OF ART IN THE 21ST CENTURY. The course suggests an inquiry into the world of curating art in the 21st century. The course combines theory and history of curating with hands-on experience in curating a project with the instructor’s guidance. The term curating is derived from Latin verb curare, which translates as to heal/to take care of/to attend to. The course unravels the mechanisms through which curators make exhibitions happen whether they re-imagine contexts for existing works of art and/or commission new artworks specifically produced/installed for a show. Emphasis is placed on contemporary art and its curators, institutions, premises and principles, starting with the concept of the curatorial. Themes explored are, among others, history of museums and art institutions; theories of curating; the relationship between curator and artist; the premise of the white cube vs. the re-activation of historical spaces; curator-as-artist/artist-as-curator; curator-artist-spectator. With visits to art spaces, from national museums, to privately owned galleries, the students will learn first-hand how to curate an exhibition, covering all aspects, from coming up with a curatorial concept, to more practical issues, such as fundraising, promotion, liaising with artists and galleries, insurance, budget, installing art and all constituent elements of a successful show. Fall Semester. (ARTH 386, ARTH 486)

20-384, 20-484  
THE DAWN OF GREEK ART: FROM HOMER TO THE PERSIAN WARS. This course explores the early development of Greek art (ca. 750–480 BCE) against the backdrop of the formative period of Greek Civilization: the Rise of the polis, the Age of Colonization, and the emergence of Athens as a
cultural and artistic center. Summer Session. (ARTH 392, ARTH 492)

20-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (ARTH 399)

Business - BUS (CYA)

16-333, 16-433 SUSTAINABLE FUTURES: CULTURAL HERITAGE AND TOURISM MANAGEMENT. This course aims at presenting a strong case for the benefits of a rapprochement between cultural heritage and tourism studies. Common denominator in both disciplines in the 21st century is the critical issue of sustainability. The humankind is already on the verge of a new era, according to some, the Anthropocene, where the anthropogenic impact is a sweeping force for ecosystems, and when climate change is no more a threat but a reality with wide-ranging consequences and a global impact. Furthermore, increasing numbers of visitors threaten the authenticity and visibility of cultural heritage sites. The course draws from a wide variety of perspectives, critical approaches, theoretical stances and case studies to indicate how a constructive dialogue between heritage and tourism experts can facilitate a paradigm shift for realistic albeit groundbreaking policies toward a sustainable future. Spring Semester. (BUS 345, BUS 445)

16-313, 16-413 BUSINESS, ETHICS AND POLITICS. This course examines some of the standard issues in business ethics, and what deeper, philosophical problems (both ethical and political) lie at the source of these issues. The main form of business we will be concerned with is the corporate form of business in capitalism. The course will formulate and examine the following philosophical problems: 1) The philosophical problem of personhood and corporate responsibility, 2) The philosophical problem of corporate corruption and crisis, and last 3) The philosophical problem of corporate management and happiness. 4) The problem of Corporate Citizenship, 5) The problem of Democracy, 6) The problem of Justice, 7) The problem of freedom, 8) The problem of Labor, and 9) The problem of Environment. Finally, this course examines answers to these problems by alternative, radical, activist forms of production and exchange of goods. Fall and Spring Semester. (BUS 350, BUS 450)

16-323, 16-423 COMMUNICATING ACROSS CULTURES. THE INTERNATIONAL BUSINESS CONNECTION. This course is about the human element of an increasingly integrated global economy. As entrepreneurship continues to boost its international character, people become travelers across different sociocultural and economic environments. The goal of business strategies and executives alike is to make things work in diverse cultural contexts, having to deal with local rules and particularities, habits and processes. Approaching the field is a multi-disciplinary task. Therefore, this course borrows elements from various fields: communications, culture, management and business. It adopts a multi-dimensional approach to the subject matter, introducing topics such as cross-cultural communication, cultural intelligence, negotiations across cultures, workplace social communication, culture in virtual teaming etc. Management and communication systems and techniques can provide solutions and point the way forward. However, the starting point lies within people themselves. Fall Semester. (BUS 360, BUS 460)

16-946 INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (BUS 398)

16-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (BUS 399)

Classical Languages - CLAG & CLAL (CYA)

02-113 BEGINNING ANCIENT GREEK I. The course consists of an intensive study of the forms, syntax, and vocabulary of ancient Greek. Through a systematic and in-depth presentation of vocabulary and language forms students develop their skills in reading, comprehension and translation of phrases and, eventually, small passages in classical Greek. Apart from the exercises in the textbook, students have the opportunity to develop their language skills through additional stimuli such as of short inscriptions carved in a variety of media (e.g. stone, ostraca, vases) and simple texts written on coins and papyri. Fall Semester. (CLAG 101)

02-123 BEGINNING ANCIENT GREEK II. Students who have successfully completed 02-113 (CLAG 101) or its equivalent undertake the reading of an original text. Spring Semester. (CLAG 102)

02-213 INTERMEDIATE ANCIENT GREEK I: ATTIC PROSE. Students are introduced to the work of
writers of the 5th and 4th c. BC. Consists of the reading of one or more Socratic dialogues in Plato or of the most representative speeches of the greatest Attic orators of the period, such as Lysias, Isocrates, Antiphon and Demosthenes. In this course students improve their reading skills by translating as much Greek as possible. At the same time, we focus on expanding their knowledge of the grammar and syntax of the language. Exams in writing, exercises on the board and sight-reading are important components. We also examine the author's language and style in comparison to that of contemporary authors. Aspects pertaining to the place of the text in its historical context are also discussed: how does the work relate to the events of the period during which it was written, what was its purpose, does it reflect the values of the society and its people, what values are those, what are the author's political views, and so on. It is the overall purpose of the course not only to improve the reading skills of the students but also to make clear the role of the text in the history of Greece and the literature produced. Prerequisite: 1 year of Ancient Greek. Fall Semester. (CLAG 201)

02-223

INTERMEDIATE ANCIENT GREEK II: HOMER. The course consists of the reading of selected books from The Iliad or The Odyssey; sight-reading and exercises in writing Greek prose complete the course. Prerequisite: 1 year of Ancient Greek. Spring Semester. (CLAG 202)

02-313

ADVANCED ANCIENT GREEK I: THUCYDIDES. The course includes the reading of one or more of the books of The History, and sight-readings of Greek prose and poetry. Prerequisite: 3 semesters of Ancient Greek. Fall or Spring Semesters. (CLAG 305)

02-323

ADVANCED ANCIENT GREEK II: ATTIC POETRY. The course is intended to introduce students to the work of the great tragedians of the 5th c. BC (Aeschylus, Euripides, Sophocles) or the comedies of the most important poet of the Old Attic Comedy, Aristophanes. The course consists of the reading of one tragedy or comedy. At the same time, the aim is to expand students' knowledge of the grammar and syntax of the language. Exams in writing, exercises on the board, sight-reading and meter exercises are important components of the course. We also examine the author's language and style in comparison to that of contemporary authors. Aspects pertaining to the place of the text in its historical context are also taken under consideration: how does the work relate to the events of the period during which it was written, what was its purpose, does it reflect the values of the society and its people, what values are those, what are the author's views with regard to contemporary politics, and so on. At the end of the semester each student is assigned a role, and the play taught in class is presented in front of the entire CYA community. In this way, the students are presented with the opportunity not only to improve their language skills but also to "feel" the spirit of the play, the ethics of its characters, and its role in the history of Greece and poetry. Prerequisite: 3 semesters of Greek. Spring Semester. (CLAG 306)

02-353

THE GREEK STONES SPEAK: AN INTRODUCTION TO GREEK EPGRAPHY. This introduction to Greek epigraphy offers a practical guide to one of the ancient world's most interesting types of evidence - inscriptions. Texts inscribed on stone and other materials give us insights into antiquity that the literary sources cannot, bringing us closer to the ordinary individuals who composed, carved and read them. Inscriptions illuminate almost every aspect of the ancient world, from the monumental public laws, decrees and royal pronouncements that effected state policies to the everyday shopping lists and graffiti scratched on potsherds. The course investigates the origins of written Greek, examines a variety of types of texts (decrees, dedications, funerary epitaphs, curses), and explores the historical topics which inscriptions inform (democracy, law, empire, literacy and bilingualism). Much of the course will be spent on sites and in museums looking at and working with inscriptions, especially at the Epigraphic Museum (the world's largest collection of Greek inscriptions), and will include a strong practical element, guiding the student through the skills needed to read and interpret both the stones themselves as well as demystifying their publications, opening up a wealth of historical, linguistic, and archaeological material. Prerequisite: Background in ancient languages (1-2 semesters of Ancient Greek). Spring Semester. (CLAG 306)

02-363

ATTIC PROSE IN TRANSLATION: THUCYDIDES THE ATHENIAN. The course will involve a close reading of the entire work of Thucydides in translation, but key passages will be read and analyzed in the original Greek. The focus will be on the author: an Athenian general who had participated personally in some of the events that he writes about and held strong opinion about his characters. In this way, Thucydides will be understood, not only as a historian, but as a man deeply involved in the politics of Athenian Democracy. Prerequisite: Background in ancient languages (1-2 semesters of Ancient Greek). Fall Semester. (CLAG 351)

02-383

THE ILIAD OF HOMER. The course involves a close reading of the Iliad (in translation) and constitutes an in-depth exploration of several aspects of the poem, historical, psychological, religious. To begin with the historical setting, the daunting ruins of Troy are viewed as a monument that inspired the poet in the seventh century BCE - not earlier. This was a time when the Assyrian empire
was expanding and Greek soldiers were employed as mercenaries in the Near East and Egypt. The possibility that Homer saw these ruins in person is investigated. Emphasis will be placed on the analysis of the psychology of the characters: the plight of soldiers fighting far away from their country, the guilt of a woman who betrayed her husband, the dark side of pride and egocentrism that may lead to madness. Homer includes animals in his enormous literary canvass: the fear of a timid hare seeing a predator approaching matches the fear of a soldier walking resolutely to his death. The course finally explores the religious dimension of the poem: do the gods in the Iliad really exist or are they figments of human imagination? The poet allows his readers to make up their own minds, but makes sure that the epiphany of a god is never witnessed by more than one person. His unique grasp of the predicament of man as a helpless but heroic creature in lawful but loveless universe makes the Iliad one of the best poems ever to have been written. All texts are in translation. Spring Semester. (CLAG 354)

02-393 HERODOTUS AND ATHENS. The course will offer a close reading of Herodotus text in translation addressing the following themes: Herodotus and his relationship to Athens, Herodotus as a traveler and Anthropologist, Herodotus as a story teller, Herodotus and Women, Herodotus as a philosopher. Finally, his historical method will be examined in connection with Thucydides; his role in Athens in establishing the genre that we now call history will be emphasized. Fall Semester. (CLAG 355)

02-374 GREEK TEXTUAL CRITICISM AND PALEOGRAPHY. This course will focus on Greek textual criticism and paleography, and will provide students with an understanding of the methodology and sources for the reconstruction of ancient literature and insight into transmission of texts from ancient to modern times and the significance of the reconstruction of ancient texts. Prerequisite: Background in ancient languages (1-2 semesters of Ancient Greek). Summer Session. (CLAL 390)

02-233 INTERMEDIATE LATIN I. This course introduces students to the most representative work of the Roman comic playwright, T. Maccius Plautus (d.184 BCE). Although his Latin is somewhat archaic, it is quite simple and easy to translate. The course aims to improve students' reading skills and at the same time expand their knowledge of Latin grammar and syntax. Students also examine the author's language and style, and discuss his texts in their historical context. Prerequisite: 1 year of Latin. Fall Semester. (CLAL 211)

02-243 INTERMEDIATE LATIN II. Reading of selected authors as indicated by the requirements and previous level of attainment of the class, exercises in prose composition. Prerequisite: 1 year of Latin. Spring Semester. (CLAL 212)

02-333 ADVANCED LATIN I. Reading of selected authors as indicated by the requirements and previous level of attainment of the class, exercises in prose composition. Prerequisite: 3 semesters of Latin. Fall Semester. (CLAL 311)

02-343 ADVANCED LATIN II. Reading of selected authors as indicated by the requirements and previous level of attainment of the class exercises in prose composition. Prerequisite: 3 semesters of Latin. Spring Semester. (CLAL 312)

02-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (CLAG 399, CLAL 399)

Communications – COMM (CYA)

15-313, 15-413 MEDIATING THE MESSAGE: SOCIAL MEDIA AND PEOPLE (IN GREECE). Social Media (or Social Networks) constitute the spear of the Writable Web that is causing massive changes in traditional mediating models. Human and institutional communication is going through tremendous change, with individual wisdom directly competing with mass media operations. Peer online activity and shared material create multiple instances of media experiences for users who are engaged in a constant selection process, either browsing on a homepage of an online newspaper or through Facebook posts. Traditional media, despite their heavy online investments are challenged in terms of their role as leading intermediaries between institutional sources and society. Studies have suggested that peer-shared material via deep links to websites constitute a significant point of entry for an increasing population of social network users, who tend to ignore pre-arranged syntheses of news stories on mainstream homepages. THE GREEK CASE: During the crisis years in Greece, online public dialogue has experienced a substantial growth, not only amongst people, but also between audiences and established media that, increasingly see news content being put under scrutiny by producers-users or producers, who are active online. Traditional political forces have similar experiences, trying to keep up with developments. During the crisis years in Greece, social media users/voters have boosted political discourse via social networks, contributing, sharing or commenting on on-going developments. At the same time, crisis at a political level has caused the
disintegration of old political formations accompanied by the demise of, until then, dominant political rhetoric and messaging systems. Social media functions of mainstream politics remained in the margins of creativity, playing a minimal role amongst potential voters. Spring Semester. *(COMM 346, COMM 446)*

**15-323, 15-423**

**COMMUNICATING ACROSS CULTURES. THE INTERNATIONAL BUSINESS CONNECTION.** This course is about the human element of an increasingly integrated global economy. As entrepreneurship continues to boost its international character, people become travelers across different sociocultural and economic environments. The goal of business strategies and executives alike is to make things work in diverse cultural contexts, having to deal with local rules and particularities, habits and processes. Approaching the field is a multi-disciplinary task. Therefore, this course borrows elements from various fields: communications, culture, management and business. It adopts a multi-dimensional approach to the subject matter, introducing topics such as cross-cultural communication, cultural intelligence, negotiations across cultures, workplace social communication, culture in virtual teaming etc. Management and communication systems and techniques can provide solutions and point the way forward. However, the starting point lies within people themselves. Fall Semester. *(COMM 360, COMM 460)*

**SELECTED TOPICS.** May be repeated with change in topic. *(COMM 399)*

### Cultural Heritage - CHTE (CYA)

**21-313, 21-413**

**PHOTOGRAPHY AND ARCHAEOLOGY: THE ART OF DOCUMENTATION.** The study of the relationship between photography and archaeology requires a multi-disciplinary approach. We must be practitioners and theorists, researchers and analysts, approaching archaeological photography from a variety of angles. Through lectures and viewing the work of major figures in the field, you will become familiar with the development of the medium alongside the discipline of archaeology. Through site visits and hands-on experience with specialized equipment, you will gain insight into the mechanics of photography and how it shapes vision. Through examining case studies and conducting your own research, you will discover how photography has often held up a mirror to the greater cultural contexts of archaeology. Spring Semester. *(CHTE 323, CHTE 423)*

**21-343, 21-443**

**SUSTAINABLE FUTURES: CULTURAL HERITAGE AND TOURISM MANAGEMENT.** This course aims at presenting a strong case for the benefits of a rapprochement between cultural heritage and tourism studies. Common denominator in both disciplines in the 21st century is the critical issue of sustainability. The humankind is already on the verge of a new era, according to some, the Anthropocene, where the anthropogenic impact is a sweeping force for ecosystems, and when climate change is no more a threat but a reality with wide-ranging consequences and a global impact. Furthermore, increasing numbers of visitors threaten the authenticity and visibility of cultural heritage sites. The course draws from a wide variety of perspectives, critical approaches, theoretical stances and case studies to indicate how a constructive dialogue between heritage and tourism experts can facilitate a paradigm shift for realistic albeit groundbreaking policies toward a sustainable future. Spring Semester. *(CHTE 345, CHTE 445)*

**21-354**

**ILLEGAL ANTIQUITIES.** Who owns the Greek past? Where do the Parthenon Marbles belong and why? Where do Cycladic figurines come from, and why do we know so little about most of them? Is the Getty Kouro a authentic Greek statue? Can we use science to answer this question? If the Euphronios Krater was made in Greece, why is it in Italy (after more than thirty years in the US)? Is looting still happening in Greece? We will contemplate these and other questions in our discussion of the broad range of ethical dilemmas connected to Greek antiquities in the 21st century. We will focus on issues concerning the looting of ancient sites; ethical, political, and legal aspects of the international trade in art objects and antiquities; authenticity and forgery of ancient art and the scientific technologies applied in the analysis of ancient objects; the management of museums and repatriation of cultural property; conservation and preservation of cultural heritage; and the protection of cultural property in armed conflict. No previous knowledge of Greek art and archaeology is required. Summer Session. *(CHTE 355)*

24
21-324, 21-424  THE PRESENT PAST: RE-IMAGINING GREECE THROUGH HERITAGE. The course focuses on a journey – literally and metaphorically – into aspects of Greek (and also world, as defined by UNESCO) heritage. We will delve into the past, as a complex and ever-present entity and unravel the constituent elements of cultural heritage in contemporary Greece. Among others, we will trace the presence and influence of the following: the classical Greeks and the Romans; the Knights; the Ottomans; the Italians in the S Aegean islands; the vernacular and its roots; the natural and the cultural; current receptions of the past; tourism management and the quest for authenticity in Greek sites and monuments; Greek heritage as it relates to world heritage. The aim of this course is to help you form a solid and educated opinion with regard to what constitutes Greek heritage in the 21st century as well as how we can all contribute, as educated travelers, to the preservation and dissemination of this cultural knowledge. Summer Session. (CHTE 356, CHTE 456)

21-333, 21-433  THE ART AND CRAFT OF CURATING: MAKING SENSE OF ART IN THE 21ST CENTURY
The course suggests an inquiry into the world of curating art in the 21st century. The course combines theory and history of curating with hands-on experience in curating a project with the instructor’s guidance. The term curating is derived from Latin verb curare, which translates as to heal/ to take care of/ to attend to. The course unravels the mechanisms through which curators make exhibitions happen whether they re-imagine contexts for existing works of art and/ or commission new artworks specifically produced/ installed for a show. Emphasis is placed on contemporary art and its curators, institutions, premises and principles, starting with the concept of the curatorial. Themes explored are, among others, history of museums and art institutions; theories of curating; the relationship between curator and artist; the premise of the white cube vs. the re-activation of historical spaces; curator-as-artist/ artist-as-curator; curator-artist-spectator. With visits to art spaces, from national museums, to privately owned galleries, the students will learn first-hand how to curate an exhibition, covering all aspects, from coming up with a curatorial concept, to more practical issues, such as fundraising, promotion, liaising with artists and galleries, insurance, budget, installing art and all constituent elements of a successful show. Fall Semester. (CHTE 386, CHTE 486)

21-946  INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (CHTE 398)

21-301, 302, 303, 304  SELECTED TOPICS. May be repeated with change in topic. (CHTE 399).

Economics - ECON (CYA)  
03-313, 03-413  CRISIS & CHANGE IN GREECE/EUROPE. Co-taught by a political scientist and an economist, this course explores the causes, the present reality and the future implications of the Greek and European crises. By using a variety of analytical tools and perspectives, the course offers a comprehensive examination of the ongoing crisis, which has tested the limits of European solidarity and has evolved into one of the greatest challenges to the European integration project and the common currency. The economic component concentrates on the historical economic, political and institutional factors, which largely determined the economic performance and shaped the structural features of the Greek economy. The historical approach offers a broad overview of the major changes in policy regimes, economic institutions, ideas and policies and an understanding of the EU-Greek economic and institutional relations. This background helps students better understand the long-term economic and structural factors that caused the economic crisis and the rationale that lies behind the Economic Adjustment Programs agreed between Greece and its European creditors. The political economy component provides an overview of the Greek/Eurozone crisis from institutional, political and economic perspectives. It sets the Greek crisis within the greater European context, with a special emphasis on the interdependence and interconnection between the systems. This section places a special emphasis on recent developments in the Greece - since the January 2015 election of the left wing SYRIZA government and examines possible scenarios for the future, for both Greece and Europe. Fall and Spring Semesters. (ECON 326, ECON 426)

03-324, 03-424  POLITICAL ECONOMY IN HISTORICAL CONTEXT: FROM ANCIENT GREECE TO MODERN GREEK CRISIS. This course considers the current issues and debates of international political economy through a critical examination of the ancient Greek world through experiential learning left uncovered by traditional on-campus curriculum. Designed as a hybrid course synthesizing classical studies and political economy, the course is divided into two parts. Students will first have direct contact with a part of the ancient Greek world that expresses the ancient Greek
economy as an economy and not merely a component of social, political or economic history. Through field trips, archaeological site visits and guest lectures, students will then be challenged to translate the lessons of antiquity into contemporary relevance through critical debate and analysis. Students will consider the relationship between power and wealth, how ancient city-states organized trade and financial marketization, consumption, resource sustainability and social institutions, as well as the factors leading to their decline. These theories will then be thrashed against 21st century global market challenges, with particular focus on the ongoing crises facing Greece. The two most important centers of the ancient Greek world - Delos (the Delian League) and Delphi - will be visited on two separate excursions. Classes will also be held at various archaeological sites in Athens in addition to a visit to Parliament and various corporations in and around Attica. Summer Session. (ECON 340, ECON 440)

03-946

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (ECON 398)

03-301, 302, 303, 304

SELECTED TOPICS. May be repeated with change in topic. (ECON 399)

Environmental Studies – ENVR (CYA)

04-334

SUSTAINABLE DEVELOPMENT: ISLAND COMMUNITIES & CONSERVATION. The course comprises a four-week session, which will evolve around the ecological – social work done by the not-for-profit (NPO) organization “Healing Lesvos” on Lesvos Island. The organization is monitoring the terrestrial and marine environment of the island with a special focus on the northern part that has been effected drastically by the environmental, financial and social impacts of the 2015 refugee crisis. Summer Session. (ENVR 330)

04-313, 04-413

THE NATURAL ENVIRONMENT OF GREECE. A unique review of the natural world and wildlife of Greece through an exploration of its lands and seas with reference to humankind’s effects on the environment through the ages. The course uses a multidisciplinary approach to study physical and human geography, biodiversity, and historical ecology. Through a succession of guided excursions in and around Athens, students are able to interpret landscape features and processes and develop skills in identifying the region’s rich flora and fauna. Interpreting natural history promotes a better awareness of the environment and current conservation problems in modern Greece. Spring Semester. (ENVR 350, ENVR 450)

04-323, 04-423

URBAN SUSTAINABILITY. Drawing on recent interdisciplinary work in urban studies this course examines the, often-conflicting social, economic and environmental dimensions of sustainable urban development theory and practice. In order to problematize the relevant discussion and connect it with the production of urban space we will analyze case studies in Athens and attempt to unpack the contradictions that are connected with urban development and the use of natural recourses in the last decades and during the current crisis. Fall semester. (ENVR 370, ENVR 470)

04-946

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (ENVR 398)

04-301, 302, 303, 304

SELECTED TOPICS. May be repeated with change in topic. (ENVR 399)

History - HIST (CYA)

06-313, 06-413

DEVELOPMENT OF ATHENIAN DEMOCRACY. This course examines the emergence and unfolding of the political institutions of Athenian democracy to the end of the 5th c. BC. Its focus is primarily on the Age of Pericles, when Athenian democracy reached the point of its highest development, a period generally acknowledged as being one of the greatest moments in world history. The political institutions of the period are examined against their historical background and on the basis of the study of primary sources (i.e. the reading and interpretation of literary sources, visits to archaeological sites and museums, the study and interpretation of inscriptions and other
archaeological evidence). Fall or Spring Semesters. (HIST 311, HIST 411)

06-323, 06-423

CONTEMP GREEK POLITICS & SOCIETY. Cast in a comparative framework designed to render Greek society and political system more readily intelligible to the average American undergraduate, the course explores the history of the modern Greek state in search of insights and interpretative keys that might shed light on the country’s current crisis. A salient feature of the course is an examination of the central role that the “foreign factor” has played in Greek politics from the early 19th century until today. Equally important is the historical investigation of Greek national identity—its different sources and strands—in an attempt to explain the sudden growth of anti-immigrant, xenophobic and ultra-nationalist sentiments. Class sessions are supplemented by a visit to the Greek Parliament where students have the opportunity to talk with leading politicians, a walking tour of Athens, and the screening of select Greek movies. Fall Semester. (HIST 339, HIST 439)

16-204

HEALTH & HEALING IN THE ANCIENT GREEK WORLD. The course focuses on the ancient Greek experience of health and healing from the Archaic through the Hellenistic era, as presented in a number of key texts and in the material or archaeological record. A central project will be discovering and understanding the contemporaneous emergence and continued success of both Hippocratic medicine and Asclepian religion/cult, two distinct but related ways of thinking about health and healing. Ten days on the island of Kos, the birthplace of Hippocrates and the site of one of most beautiful sanctuaries of Asclepius, will bring us directly into engagement with the two approaches to health and disease, while days spent in Athens will give us the chance to visit the site of Athenian sanctuary of Asclepius on the south slope of the Acropolis and also view the many artifacts from that sanctuary now in the National Archaeological and New Acropolis museums. Summer Session. (HIST 335)

16-213, 16,513

ALTERNATIVE HISTORIES: JEWISH GREEKS AND THE MODERN NATION. The course focuses on the experiences of Jews living in the Greek nation-state during the 19th and 20th centuries. It is structured around a core issue: The encounter of pre-national Jewish identities with the exigencies of a new, ‘modern’ at the time idea, namely that of a common Greek national identity. This encounter was part of the wider transition from the era of empires to that of nation-states. And it was not an easy encounter. Since the formation of the Greek state in the 19th century, Greek-Orthodox religion has been conceived as one of the main components of Greek national and cultural identity, binding together the expanding new-born nation-state. Nevertheless, being the heir of the multi-religious Ottoman Empire where Greek-Orthodox Christians lived alongside Muslims, Jews, and Christians of different denominations, the Greek state that emerged out of the Ottoman Empire had to take up the challenge of dealing with this non-Orthodox population that came included in its territories. The course will thus follow this encounter focusing primarily but not exclusively on two aspects: a) on the policies that the Greek state adopted in order to «manage» the Jewish populations that were being gradually added in its territory; and b) on the reactions that the Jews living in the various communities had in front of the new exigencies of the Greek state; reactions that covered the whole spectrum from assimilation to migration. The study of the Jews in Greece will be also framed by case-studies of other non-Orthodox Greeks, tracing the responses that they devised in order to articulate their plural identities combining non-Orthodox religious and cultural elements with the idea of a common, unique Greek national identity. The course will close by briefly examining the redefinition of “Greekness” after new immigrant populations reached Greece in the post-WWII era. Understanding how Jews and more generally people of different creeds and origin devised alternative versions of “Greekness”, which undermined the intimate connection between religious and national identity, is more than relevant today that nation states and their supposed homogeneity is seriously challenged by the waves of global migration, forcing us to reflect anew on forms and definitions of belonging. Spring Semester. (HIST 349, HIST 449)

06-333, 06-433

SPORTS, GAMES & SPECTACLES IN THE GRACO-ROMAN WORLD. The main aim of this course is to explore the emergence and development of both athletic competitions and sports-based games and spectacles from the Bronze Age through to the period of late antiquity. Within this wider spatial and temporal context, it focuses on two separate thematic entities: Ancient Greek Athletics, with particular attention to the development and evolution of the main Ancient Greek athletic events over the ages, and an in-depth investigation of Roman public spectacles and gladiatorial games. Drawing on a variety of disciplines and available (primary) sources, from history and archaeology to modern sports studies and social psychology, the course primarily seeks to examine the main purpose and function of these games and spectacles within the wider social, political, religious, cultural and intellectual context of the times, as well as their overall significance in the daily lives of the ancients. A secondary aim of this course is to explore how archaeologists and historians analyze primary sources to determine their veracity and reliability. To this end, we'll be looking at re-creations and experiments that have been conducted, as well as conducting many of our own, to create a hands-on
06-343, 06-443 ANcient Macedon. An examination of the actions and events of the 4th c. through the study of primary evidence - literary, epigraphic and archaeological. Special attention is paid to the career of Philip II and to that of his son Alexander the Great. The course is partly taught on the field trip to Northern Greece which takes students to Thessaloniki and its museums, the ancient capital city of Pella, the royal Macedonian tombs, the palace at Vergina and other sites with a view to familiarize the students with the archaeological evidence on Macedonian history. A visit to the Epigraphic Museum in Athens acquaints students with important 4th c. documents that survive inscribed on stones and which constitute valuable sources of ancient history. Special emphasis is given to topics that are central to modern political and intellectual debate. Spring Semester. (HIST 356, HIST 456)

06-353, 06-453 Biography of an Empire: The Surprising Life of ‘Byzantium’ (324-1453). The course is an introduction to the history of the Byzantine Empire (284/324-1453). The first unit explores the transformation of the Ancient World and the emergence of the Byzantine Empire as a major political, economic, and cultural power in Europe and the Near East, from Diocletian’s re-foundation of the Roman Empire (284-305) and Constantine’s re-foundation of the city of Byzantium/New Rome (324) until the end of the 12th century. Among the topics covered in this unit are the development of imperial ideology and the institutions of the state; warfare and diplomacy; social and economic life, and literary, artistic, and architectural achievements. The second unit examines the period between the Latin and the Ottoman Conquests of Constantinople (1203/1204 and 1453) and the shaping of the historical memory of Byzantium from the Late Middle Ages to today, and ends with an introduction to the Medieval history and monuments of the Peloponnese and the school field trip to the region. A major theme of this second unit is Byzantium as perceived in Western arts (literature, theatre, cinema, opera, music, photography, painting and sculpture), in order to better understand the mechanisms of (re)construction of historical memory through the analysis of different interpretations of particular historical events. The course pays particular attention to Athens and the Peloponnese in its use of examples and case histories covering many aspects of medieval history (the Crusades and the rise of Islam), art and architecture and along with a focus on the religious aspects. The course should be very useful for students majoring in these subjects as well as those in modern history & religious studies. Fall Semester. (HIST 359, HIST 459)

06-383, 06-483 Who is a Greek? Politics of National Identity in Modern Greece. This course aims to explore the historical trajectory of this question illustrating how political and social priorities shaped diverse responses over time. The main goal is to understand that being a Greek, and the criteria that confirmed this over time, is not a strict legal category, but rather a flexible ideological concept. Fall and Spring Semester. (HIST 365, HIST 465)

06-393, 06-493 The Greek Jews: History, Identity & Memory. This course explores the history of the Greek Jews from 1821 to the present, focusing on: their rich cultural and religious traditions; communal life; incorporation into Greek society and the events that shaped their lives - including the Holocaust and its remembrance. The Greek Jews include primarily two communities, the Romanies and the Sephardim. The Romaniotes have been present in the Greek lands for centuries and are considered the oldest Jewish community in Europe. The Sephardic Jews settled in the Greek lands after their expulsion from Spain in 1492. Their large concentration in Salonica -present-day Thessaloniki- made the city known as “Mother of Israel.” The course studies the evolution of this extraordinary blend of Jewish history and culture, its place in Greek society, the devastation endured in the Holocaust, and its survival and memorialization in present-day Greece and Israel. Spring Semester. (HIST 366, HIST 466)

06-363, 06-463 To the Strongest: Ancient Near East. The conquests of Alexander the Great, which brought under Macedonian rule the regions of Egypt, Mesopotamia and Persia, up to the borders with India, had a profound impact on the future course of the history of the Near East. Through the study of primary sources, both literary and archaeological, this course explores the long history of interaction between the Greco-Roman world and that of its Near Eastern counterpart and the significant influence this interaction had on the formation and development of a common cultural, religious, and political identity, which modern scholars have labeled “Hellenistic”. Within this perspective, our main focus is on the investigation of particular aspects of Near Eastern civilization: the emergence of new cultural...
and social institutions, new forms of economic life, and the creation, fusion, and amalgamation of religious institutions (to which this course gives a special emphasis). The main purpose of the course is to provide significant insight into an often neglected and yet very important and formative era in world history, the Hellenistic period. Fall Semester. (HIST 368, HIST 468)

06-373, 06-473

IS THIS THE CENTER OF THE WORLD? How do we understand a national history within a transnational context? This course illustrates the links and intersections between Greek, Balkan, European and Global history, while offering an overview of Modern Greek history spanning from the revolutionary visions of the 19th century until the contemporary crisis of the common European project. Spring semester. (HIST 385, HIST 485)

06-394, 06-494

THE DIALOGUE BETWEEN THE GREEKS AND THE JEWS THROUGH THE AGES. This month-long seminar will explore the encounter between Jews and Greeks through the past three and a half millennia. Topics include aspects of thought and language, myths and sacred texts, mutual encounters that interweave like a double helix throughout the history of the two peoples unique in their contributions to western civilization and their influence upon each other and their discipline nations. Summer Session. (HIST 392, HIST 492)

06-301, 302, 303, 304

SELECTED TOPICS. May be repeated with change in topic. (HIST 399)

Independent Study (CYA)
12-413, 12-423

INDEPENDENT STUDY. Both Semesters. (T401, T402)

International Relations - IREL (CYA)
22-313, 22-413

A CHANGING WORLD: GLOBAL AND REGIONAL TRENDS IN THE 21ST CENTURY. The course will discuss the main trends and drivers that will shape the global security environment in general and the Mediterranean region in particular in the next 10 years. Such trends and drivers will include the role of emerging powers and of non-state actors, globalization, population/demographic dynamics, economy, natural resources and technology, climate change, and the rise of political Islam, and their potential influence on regional developments will be examined in detail. Fall Semester. (IREL 361, IREL 461)

22-323, 22-423

AN ARC OF CRISIS IN EUROPE’S SOUTH: THE REGIONAL SECURITY ENVIRONMENT IN THE EASTERN MEDITERRANEAN. From Ukraine and the current state of relations between the West and Russia, to Syria and the explosive situation in several countries of the Middle East after the failure of the Arab revolts, Israel-Palestine, Cyprus and Greek-Turkish relations, the Western Balkans, migration/refugee flows from Europe’s southern neighborhood, the challenge of Jihadist terrorism, hydrocarbons geopolitics, this course examines the causes of conflicts and possible conflict resolution options. Prerequisite: background in political science and/or international relations. Spring Semester. (IREL 373, IREL 473)

22-946

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (IREL 398)

22-301, 302, 303, 304

SELECTED TOPICS. May be repeated with change in topic. (IREL 399)

Literature - LIT (CYA)
07-324, 07-424

BECOMING A TRAVELER: WRITING IN GREECE. Through creative nonfiction the course uses Greece as a lens to examine the ways writers draw on Greece’s rich myths, history, and literary traditions. It explores questions that arise when writing about place and travel. In what ways do our expectations and our actual perceptions merge into a narrative? And how do outsiders’ perspectives contribute to the literary composition and creation of place? Students work on crafting and analyzing nonfiction prose that is reflective, lyrical and/or investigative, and that borrows rhetorical elements from fiction and poetry. Summer Session. (LIT 348, LIT 448)

07-313, 07-413

ATTIC TRAGEDY (IN TRANSLATION). This course is intended to introduce students to the work of the great tragedians of the 5th c. BC (Aeschylus, Euripides, Sophocles). From the end of the Persian Wars to the battle of Aegospotami, the Athenian state flourished in an unprecedented way that marked the history of the western world. It is in this time frame that tragedy emerged as the culmination of the literary tradition of the 8th-6th c BC and the product of the prosperity of the “golden
era” of Athens. Thus, the plays of Aeschylus, Euripides, and Sophocles are both a fascinating way into the wider political, social and religious culture of 5th c. Athens and a rich part of an important tool for the study of theater in antiquity and nowadays. The plays are analyzed with respect to the author’s language and style and in comparison to contemporary authors. At the same time, they are being considered in their literary, cultural, intellectual, and historical contexts, and the following questions are addressed: what was Attic tragedy; how and why did it emerge; what were the mechanisms of theatrical production in ancient Greece; how did the plays relate to the events of the fifth century; did they reflect social values, and what values were those; what is the impact of ancient tragedy on modern culture; what is its relevance and value in the theater today, and so on. To answer these questions, the course examines closely a number of plays and students discuss them with the aid of modern scholarship. No previous knowledge is required, and all texts will be studied in translation. Spring Semester. (LIT 351, LIT 451)

07-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (LIT 399)

Modern Greek Language - MGKL (CYA)

08-114 BEGINNING MODERN GREEK I. Elementary Modern Greek for beginners or for those with very little knowledge of the language. By the end of the course, students are able to handle daily life situations (shopping, ordering food, making reservations, buying tickets, requesting and understanding directions, etc.); they acquire daily vocabulary and basic grammatical structures; and they are able to write simple letters and brief texts. Fall and Spring Semesters. (MGKL 101)

08-124 ACCELERATED BEGINNING MODERN GREEK I. An accelerated section of the elementary Modern Greek course for beginners with a background in Ancient Greek. By the end of the course, students are able to handle daily life situations, acquire daily vocabulary and basic grammatical structures; and they are able to write simple letters and brief texts. Fall and Spring Semesters. (MGKL 101A)

08-134 BEGINNING MODERN GREEK LANGUAGE AND CULTURE. This course aims to combine the classic beginning Modern Greek language instruction with Modern Greek culture. While keeping with the conventional language skills (listening, speaking, reading, and writing), this course integrates the “fifth skill” of language, culture, in a way that allows a full understanding of Modern Greece. Fall and Spring Semesters. (MGKL 101C)

08-144 BEGINNING MODERN GREEK II. Elementary Modern Greek for those with some knowledge of the language or completion of 60 hours of instruction. Students learn to handle a wide range of daily life situations; further develop vocabulary and grammatical structures (all tenses and moods, irregular conjugations and declensions); and learn to write letters and brief texts. Fall and Spring Semesters. (MGKL 102)

08-214 INTERMEDIATE MODERN GREEK I. Modern Greek for those with a solid knowledge of the language or completion of 120 hours of instruction. By the end of the course, students are able to handle a wide range of situations with complications; describe events in past, present and future; read authentic texts; make in-class presentations on a variety of topics; and write letters and simple reports. Fall and Spring Semesters. (MGKL 201)

08-224 INTERMEDIATE MODERN GREEK II. Modern Greek for those with a solid knowledge of the language or completion of 120 hours of instruction. By the end of the course, students are able to handle a wide range of situations with complications; describe events in past, present and future; read authentic texts; make in-class presentations on a variety of topics; and write letters and simple reports. Fall and Spring Semesters. (MGKL 202)

08-314 ADVANCED MODERN GREEK I. For those who wish to take Modern Greek beyond the introductory and intermediate levels and whose needs are not met by the courses offered, CYA may provide additional classes if there is sufficient demand. Please contact the Vice President of Academic Affairs for further information. Fall and Spring Semesters. (MGKL 301)

08-324 ADVANCED MODERN GREEK II. For those who wish to take Modern Greek beyond the introductory and intermediate levels and whose needs are not met by the courses offered, CYA may provide additional classes if there is sufficient demand. Please contact the Director of Academic Affairs for further information. Fall and Spring Semesters. (MGKL 302)

08-301, 302, 303, 304 SELECTED TOPICS. May be repeated with change in topic. (MGKL 399)

*CYA strongly encourages students to study Modern Greek while they are in Athens. CYA believes that the study of Modern Greek provides valuable access to the life and culture of contemporary Greece and aids in the acculturation of students.
Neuroscience - NSCI (CYA)
25-313, 25-413
THE BIOLOGY OF CONSCIOUSNESS. Consciousness has been considered one of great mysteries in human existence. Historically, psychologists and neuroscientists have largely ignored the problem of conscious awareness because it was considered subjective falling outside the realm of scientific inquiry. However, over the past several decades scientists have begun to try to tackle the problem using modern scientific tools. In fact, several years ago, a new journal was established entitled Neuroscience of Consciousness. In this course, we will begin by trying to define the term and consider the so-called “hard” and “easy” problems of consciousness. A brief history of ancient civilizations’ views on mental experience will be discussed with particular attention to Greek thinkers from the classical period. We will then go over basic neuroscientific concepts and methods that are being used to study the neural correlates of consciousness. We will explore different states of consciousness and disruptions of consciousness in human patients. We will touch on the related problems of intentionality and free will. Finally, we will discuss prevailing scientific theories of consciousness. Fall Semester. (NSCI 342, NSCI 442)

25-301, 302, 303, 304
SELECTED TOPICS. May be repeated with change in topic. (NSCI 399)

Philosophy - PHIL (CYA)
09-313, 09-413
BUSINESS, ETHICS AND POLITICS. This course examines some of the standard issues in business ethics, and deeper, philosophical problems (both ethical and political) THAT lie at the source of these issues. The main form of business we will be concerned with is the corporate form of business in capitalism. The course will formulate and examine the following philosophical problems: 1) The philosophical problem of personhood and corporate responsibility, 2) The philosophical problem of corporate corruption and crisis, and last 3) The philosophical problem of corporate management and happiness. 4) The problem of Corporate Citizenship, 5) The problem of Democracy, 6) The problem of Justice, 7) The problem of freedom, 8) The problem of Labor, and 9) The problem of Environment. Finally, this course examines answers to these problems by alternative, radical, activist forms of production and exchange of goods. Spring Semester. (PHIL 350, PHIL 450)

09-333, 09-433
THE CONCEPT OF LIFE IN ANCIENT GREEK PHILOSOPHY & ITS RELEVANCE TODAY. In the first part, the course explores the first systematic account of the concept of life which is Aristotle’s. To do this students examine Aristotle’s understanding of nature as having its own ends, his distinction between genus and species, his account of the logic of life and his distinction between forms of life [vegetative(plants), sensitive(animals), rational(humans)]. In the second part students see that the concept of life plays a crucial role in the formation of the ancient Greek philosophy of ethics, politics and culture, and that this philosophy of life is both an influence and an alternative to modern and contemporary philosophies of ethics, politics and culture. Fall and Spring semesters. (PHIL 356, PHIL 456).

09-443
ACTION IN ANCIENT GREEK AND CONTEMPORARY ANALYTICAL PHILOSOPHY. The aim of this course is twofold: to explore the formulation of this question in the analytical philosophy of the 20th century; what has come to be called the philosophy of action, and to examine the roots of this question in ancient Greek philosophy. Thus, in the first part of the course students study the way Socrates, Plato and Aristotle formulated the question. They read Plato’s Apology and the Protagoras and parts of Aristotle’s De Anima, the Metaphysics and the Nicomachean Ethics. In the second part of the course students examine the way 20th century analytical philosophy formulated the question. To do so, the class reads: Ludwig Wittgenstein, Donald Davidson, Elizabeth Anscombe, Jennifer Hornsby, Michael Bratman, Harry Frankfurt, Christine Korsgaard, John McDowell, Michael Thompson, John Hyman, etc. Prerequisite: a background in philosophy and/or classical studies Fall semester. (PHIL 415)

09-453
PRACTICAL REASON IN ANCIENT GREEK AND CONTEMPORARY PHILOSOPHY. This course explores the philosophical question of the nature of practical reason. What is it for an action to be rational or irrational? Are there different standards of the rationality of action? If yes, are these standards commensurable or incommensurate? How does the rationality of action differ from the rationality of belief? In the first part, the course examines the Socratic conception of practical irrationality as ignorance of the good, the Platonic conception of irrationality as conflict and injustice in the soul, and the Aristotelian account of practical reason as the wisdom of the virtuous man and of practical irrationality as the failure to exercise one’s knowledge. In the second part, it examines modern conceptions of practical reason (Hume and Kant) and issues in contemporary discussions of practical reason, such as the question of the naturalism of reasons, the motivating power of reasons, the existence of instrumental rationality, the commensurability of reasons, etc. Prerequisite: At least one philosophy course. Spring Semester. (PHIL 420)

31
09-464 PHILosophy Summer Seminar in Athens. A series of Philosophy Summer Seminars in Athens (PSSA) is intended for outstanding undergraduate students who are entertaining the prospect of a graduate career in philosophy. The aim is to introduce students to graduate level work and expose them to the latest research. Each PSSA focuses on one philosophical topic and culminates into a week-long engagement with a distinguished philosopher, who will be presenting their latest research on the topic. Students who do not have the opportunity to take high-level courses at their own institutions are especially encouraged to apply. The seminar meets daily for a total of 60 contact hours. It is highly intensive and is designed so as to immerse students in the state of the art research in the field and give them resources, which will enable them to apply to graduate school. The readings are demanding and students are expected to engage with them in class. Thus, a prior exposure to analytic philosophy will be necessary. Students are responsible for presenting readings to the class and for writing one 15-20 page research paper of publishable quality under the guidance of the instructor. Summer (PHIL 480)

09-301, 302, 303, 304 Selected Topics. May be repeated with change in topic. (PHL 399)

Political Science - PSCI (CYA)

10-323, 10-423 Development of Athenian Democracy. This course examines the emergence and unfolding of the political institutions of Athenian democracy to the end of the 5th c. BC. Its focus is primarily on the Age of Pericles, when Athenian democracy reached the point of its highest development, a period generally acknowledged as being one of the greatest moments in world history. The political institutions of the period are examined against their historical background and on the basis of the study of primary sources (i.e. the reading and interpretation of literary sources, visits to archaeological sites and museums, the study and interpretation of inscriptions and other archaeological evidence). Fall or Spring Semester. (PSCI 311, PSCI 411)

10-313, 10-413 Crisis & Change in Greece/Europe. Co-taught by a political scientist and an economist, this course explores the causes, the present reality and the future implications of the Greek and European crises. By using a variety of analytical tools and perspectives, the course offers a comprehensive examination of the ongoing crisis, which has tested the limits of European solidarity and has evolved into one of the greatest challenges to the European integration project and the common currency. The economic component concentrates on the historical economic, political and institutional factors, which largely determined the economic performance and shaped the structural features of the Greek economy. The historical approach offers a broad overview of the major changes in policy regimes, economic institutions, ideas and policies and an understanding of the EU-Greek economic and institutional relations. This background helps students better understand the long-term economic and structural factors that caused the economic crisis and the rationale that lies behind the Economic Adjustment Programmes agreed between Greece and its European creditors. The political economy component provides an overview of the Greek/Eurozone crisis from institutional, political and economic perspectives. It sets the Greek crisis within the greater European context, with a special emphasis on the interdependence and interconnection between the systems. This section places a special emphasis on recent developments in the Greece - since the January 2015 election of the left wing SYRIZA government and examines possible scenarios for the future, for both Greece and Europe. Fall and Spring Semesters. (PSCI 326, PSCI 426)

10-333, 10-433 Contemporary Greek Politics and Society. Cast in a comparative framework designed to render Greek society and political system more readily intelligible to the average American undergraduate, the course explores the history of the modern Greek state in search of insights and interpretative keys that might shed light on the country’s current crisis. A salient feature of the course is an examination of the central role that the "foreign factor" has played in Greek politics from the early 19th century until today. Equally important is the historical investigation of Greek national identity--its different sources and strands--in an attempt to explain the sudden growth of anti-immigrant, xenophobic and ultra-nationalist sentiments. Class sessions are supplemented by a visit to the Greek Parliament where students have the opportunity to talk with leading politicians, a walking tour of Athens, and the screening of select Greek movies. Spring Semester. (PSCI 339, PSCI 439)

10-364, 10-464 Political Economy in Historical Context: From Ancient Greece to Modern Greek Crises. This course considers the current issues and debates of international political economy through a critical examination of the ancient Greek world through experiential learning left uncovered by traditional on-campus curriculum. Designed as a hybrid course synthesizing classical studies and political economy, the course is divided into two parts. Students will first have direct contact with a part of the ancient Greek world that expresses the ancient Greek economy as an economy and not merely a component of social, political or economic history.
Through field trips, archaeological site visits and guest lectures, students will then be challenged to translate the lessons of antiquity into contemporary relevance through critical debate and analysis. Students will consider the relationship between power and wealth, how ancient city-states organized trade and financial marketization, consumption, resource sustainability and social institutions, as well as the factors leading to their decline. These theories will then be thrashed against 21st century global market challenges, with particular focus on the ongoing crises facing Greece. The two most important centers of the ancient Greek world - Delos (the Delian League) and Delphi - will be visited on two separate excursions. Classes will also be held at various archaeological sites in Athens in addition to a visit to Parliament and various corporations in and around Attica. Summer Session. (PSCI 340, PSCI 440)

**IMMIGRANTS, CITIZENSHIP AND NATIONALISM IN EUROPE.** The course explores the challenges of integrating a growing and increasingly diverse immigrant population into relatively homogeneous European polities and societies. While taking a broad comparative approach (focusing mostly on France, Germany, and the UK), the course pays special attention to Greece, a country where national identity is still strongly rooted in the notion of the ancient community of faith, culture, and blood and where migrants have not yet gained widespread access to citizenship and political participation. Students are exposed to the most recent and influential theories of nationalism, ethnicity, citizenship and social integration, but also have a chance to learn “hands-on” by interacting with local immigrant communities as well as with representatives of mainstream Greek society holding quite differing views on this increasingly controversial social phenomenon. Fall Semester. (PSCI 348, PSCI 448)

**SERVICE LEARNING: SOLIDARITY & SOCIAL MOVEMENTS IN GREECE.** In recent years, Greece has seen the emergence of what has been called “civil society,” voluntary and social organizations that are an integral part of political life, but are not commercial in nature or part of the state. This course examines this emergence, along with the changing relationships between citizen and state that have been happening concurrently, and the major social issues in contemporary Greece with which these organizations and movements concern themselves. Students join such organizations as volunteers, devoting a minimum of 45 hours to their internships over the course of the semester. These volunteer experiences are integrated into the course, providing an experiential dimension to the questions we will be exploring together. There are three main reasons why students want to do a service-learning course when they study abroad: they have a personal commitment to service or justice, they want to contribute to the community where they will be living, and they want to feel involved and immersed in this community and learn about it by being so. This course enriches those goals by providing another layer to this experience, as students learn about the history and development of the kinds of organizations that welcome volunteers, about why the concept of volunteerism has come to be so closely linked to the idea of a functioning democracy, and about why the development of this type of activity has occurred in a very specific way in Greece. All efforts are made to match students with volunteer positions that align with their interests. Spring Semester. (PSCI 357, PSCI 457)

**THE EUROPEAN UNION: CHALLENGES AND STRATEGIC CHOICES.** With 28 member states and nearly half a billion residents, the European Union has grown into a major political and economic actor on the world stage. It has promoted peace in Europe for over five decades, changed the way Europeans live, as well as the way the rest of the world perceives Europe. The EU has been considered a paradigm of a successful “peace project” that promoted stability, prosperity and successful cooperation between erstwhile feuding nations. The fact that the Union has grown from its original 6 members to the current 28 serves as undeniable proof of the appeal and attractiveness of the EU for most countries on the European continent. The ongoing economic crisis in the Eurozone has changed this idyllic picture of the EU: in this context, the European Union is being called upon to respond to the challenge of the economic crisis and safeguard the common currency, while promoting direct policies for confronting the recession and employment by stimulating growth. Moreover, the EU must address crucial social issues such as growing disillusionment with the European project, the rise of extremism in Europe, and growing polarization between North and South. At the same time, the EU faces important international challenges, such as the situation in the Middle East and Ukraine, relations with Russia and the United States, and the crucial issue of energy supplies to the Union in light of the volatile international situation. Through a combination of lectures, critical analysis in-class discussions and students’ written work/independent research, this course focuses on the study of the history, institutions, policy processes and current challenges of the European Union. Special emphasis is being placed on the ongoing economic crisis in the Eurozone area and its political/social repercussions, the strategic choices for emerging from the crisis, and the challenges of the increasingly unpredictable international environment. Spring Semester. (PSCI 363, PSCI 463)
10-393, 10-493  

THE EUROPEAN GOVERNANCE OF MIGRATION: REFLECTIONS ON EMERGING RESPONSES. The objective of the course is to provide students with an overview of the ‘global’ governance of irregular migration, looking at the theoretical framework and the policies currently implemented in the EU. It looks at the emerging responses to irregular migration and particularly maritime irregular migration to the EU from a critical and comparative perspective. It also looks at the challenge irregular migration poses for liberal democracies and specifically looks at the border management systems in place, border security, and the enforcement measures (and their implications) in the EU first and the US. Australia, a country that the EU is currently looking to as a model of future practices will also be addressed. Throughout the course, the students have the opportunity to meet with representatives of NGOs and understand the reality on the ground as well as visit one refugee reception site to comprehend the challenges in place for both host and guest. Prerequisite: background in political science and/or international relations. Fall Semester, (PSCI 384, PSCI 484)

10-964  

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (PSCI 398)

10-301, 302, 303, 304  

SELECTED TOPICS. May be repeated with change in topic. (PSCI 399)

**Psychology - PSY (CYA)**

26-313, 26-413  

THE BIOLOGY OF CONSCIOUSNESS. Consciousness has been considered one of great mysteries in human existence. Historically, psychologists and neuroscientists have largely ignored the problem of conscious awareness because it was considered subjective falling outside the realm of scientific inquiry. However, over the past several decades scientists have begun to try to tackle the problem using modern scientific tools. In fact, several years ago, a new journal was established entitled Neuroscience of Consciousness. In this course, we will begin by trying to define the term and consider the so-called “hard” and “easy” problems of consciousness. A brief history of ancient civilizations’ views on mental experience will be discussed with particular attention to Greek thinkers from the classical period. We will then go over basic neuroscientific concepts and methods that are being used to study the neural correlates of consciousness. We will explore different states of consciousness and disruptions of consciousness in human patients. We will touch on the related problems of intentionality and free will. Finally, we will discuss prevailing scientific theories of consciousness. Fall Semester. (PSY 342, PSY 442)

26-323, 26-423  

TRAUMA AND THE REMAKING OF THE SELF. This module provides an overview of current psychological theories and research in the understanding of human responses to psychological trauma and life adversities. Topics include acute stress reactions, and post-traumatic stress disorders resulting from interpersonal and family violence, sexual victimization, traumatic loss and death, disaster, and other critical life events. Resilience and post-traumatic growth in the face of life challenges will be discussed in the second part of the module. There will be a special focus on cultural and gender issues in relation to human traumatic stress reactions and resilient functioning. Spring Semester. (PSY 362, PSY 462)

26-946  

INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (PSY 398)

26-301, 302, 303, 304  

SELECTED TOPICS. May be repeated with change in topic. (PSY 399)

**Religion - REL (CYA)**

11-313, 11-413  

ANCIENT GREEK MYTHOLOGY AND RELIGION. The purpose of the course is to provide a knowledge and a method of ‘reading’ Greek myths of the Archaic and Classical periods in their cultural and historical context. The course, among other things, examines the nature of Greek myth and its representation in Greek art. It also explores how the artistic representation of myth reflected social and religious institutions and practices; and finally, it investigates how myth is related to religion. Fall and Spring Semesters. (REL 332, REL 432)
ANTHROPOLOGY OF THE CITY: EXPLORING MODERN ATHENS. This course has a three-pronged approach to exploring Athens. The first is general: we will study the "city" as both a concept and a material reality, and the theories and issues anthropologists bring to the study of the city. The second takes us to the specific: how can we apply those ideas to the city we will be located in, to Athens? The third brings us the tools necessary to collect the data for that exploration: the qualitative methodologies used in the social sciences to study the spaces, people, practices, sounds, tastes, ideas, fields of power, and more that make up everyday life in this incredible city you'll be making your temporary home. We will be systematically studying Athens in its material reality, in the experiences it shapes, and in the experiences, people shape it with. We will be engaging with how the city intersects with gender and sexuality, inequality, migration, sustainability, consumption, capitalism, politics, activism, state power, housing and homelessness, art, pleasure, and more. This course will require you to be brave and open-minded, in interacting with strangers and new places. You will try new things you end up loving and other new things you end up greatly disliking. By learning to live in and understand another culture, you will also learn more about yourself and your own prejudices and predispositions. Winter Intersession. (SOC 315, SOC 415)

TASTING CULTURE: NORDIC AND MEDITERRANEAN FOOD, TRADITION, AND NUTRITION. We eat to live. But food is not just about survival, it is about so much more: health, pleasure, identity, symbolism, class, memory, sensation, and on and on. We express who we are through our food. But how we eat is also shaped by other forces: doctors’ advice, economic ability, government regulations, climate, history, and many other factors often invisible to us in our everyday lives. Over four weeks we will explore two distinct cultural contexts in Europe—Denmark and Greece—allowing us to understand both the commonalities and the differences that such forces bring to food and cuisine, as well as people’s imagination and inventiveness in creating something to eat. The course begins in Copenhagen, Denmark, the emergent capital of New Nordic Cuisine, where tradition is being reinvented at levels both every day and haute cuisine. To balance our understanding of urban food ways, we will also spend a couple of days on the rural island community of Samsø, known for quality produce and sustainable living. The course continues in Athens, Greece, a country associated with the Mediterranean diet and a strong cultural history of knowledge and attention to food, with a few days on the island of Naxos as well, to explore the locality of food traditions and production. These four locations will enable to do comparative research and both explore and
deconstruct the categories of new/old, urban/rural, north/south, global/local, tradition/modernity, and change/continuity. Along the way, the medicalization of diets, changes in agriculture, food tourism, food security, nationalism, locality, sustainability, and more will be addressed. When not in the classroom, we will visit farms, vineyards, groves, restaurants, markets, museums, kitchens, sweet shops, cooperatives, NGOs, and festivals in our quest to experientially study food, and taste everything that comes our way. By taking this class, students will develop a sound understanding of how food is studied as an expression of society and culture, and hands-on training in the methodologies used to examine food and food practices. Summer Session. (SOC 326, SOC 426)

23-313, 23-413  
SOCIOLOGY OF DISSENT. Dissent occupies a particular place in contemporary societies. On the one hand, state mechanisms adopt pre-emptive policies and strategies in an attempt to prevent dissent from evolving into civil unrest and disorder, whilst on the other hand, dissent remains the most powerful tool in the hands of those social groups who feel and/or are marginalized, excluded or silenced. Arising in a number of contexts – the political domain, everyday life, popular culture, sports, institutions – dissent has been routinely associated with progressive causes and positive social transformation. However, similarly to the germane concept of resistance, dissent can also take regressive forms. In recent years, the multiple manifestations of crisis in the West have given rise to ideologies and practices with a strong anti-establishment profile coupled with an agenda of social exclusion, calling, thus, for a revision of our sociological horizon and analytical tools with regards to dissent. Using contemporary Greece as an entry point to these debates and combining key readings with interactive learning methods, this course presents a sociological perspective on dissent that calls into attention the meanings and conceptual histories of dissent. Fall and Spring Semester. (SOC 360, SOC 460)

23-946  
INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. (SOC 398)

23-301, 302, 303, 304  
SELECTED TOPICS. May be repeated with change in topic. (SOC 399)

Theatre - THE (CYA)  
24-313, 24-413  
PERFORMING (IN) ATHENS: EXPLORING THE CITY THROUGH THEATRE AND PERFORMANCE. Athens is considered one of the most vibrant theatre scenes in Europe. We will focus on current practices in theatre and performance mainly in Greece, but also in Europe and the United States. We will undertake a critical, historical and creative overview of theatre and performance making in periods of crisis, in Europe and the United States, and examine how contemporary Greek artists address issues such as: theatre and society, the human body/the body politic, and the stage and the city. We will also perform a slight backtrack into the ancient past and the beginnings of theatre in its birthplace. The course will include visits to different theatres and other performance spaces: a theatre in a train, a 19th century proscenium theatre, underground performance spaces, together with backstage tours and talks with artists. This course is for students in the Arts and Humanities and anyone interested in theatre and performance. Fall Semester. (THE 320, THE 420)

24-301, 203, 303, 304  
SELECTED TOPICS. May be repeated with change in topic. (THE 399)

Urbanism and Sustainability - URBS (CYA)  
13-364  
SUSTAINABLE DEVELOPMENT: ISLAND COMMUNITIES & CONSERVATION. The course comprises a four-week session, which will evolve around the ecological – social work done by the not-for-profit (NPO) organization “Healing Lesvos” on Lesvos Island. The organization is monitoring the terrestrial and marine environment of the island with a special focus on the northern part that has been effected drastically by the environmental, financial and social impacts of the 2015 refugee crisis. Summer Session. (URBS 330)

13-373, 13-473  
SUSTAINABLE SOCIAL HOUSING: THE CASE OF GREECE: This course explores the socio-economic and the environmental impact of social housing in USA and E.U., focusing on Greece. One major issue is the low level of preservation and the large number of abandoned buildings. This situation contributes to urban blight and socio-spatial inequalities. The aim of the course is to help student’s elaborate critical thinking on social housing policies. The course is interdisciplinary based on empirical research, suitable for architects, urban planners and designers, environmentalists,
sociologists and social anthropologists. Students are going to work together as an interdisciplinary team in order to evaluate the socio-spatial footprint of social housing in Greece, making the appropriate connections with international literature. This course provides also the opportunity to familiarize with the basic principles of thematic cartography. Spring Semester. *(URBS 362, URBS 462)*

13-343, 13-443  GLOBAL CITIES & AREAS OF STRATEGIC INTEREST. This course explores the contemporary tendencies and challenges of urban landscape in global cities. It will analyze the variety of forces that shape the built environment in a globalize context, focusing on transnational interrelations. Comparative studies of Piraeus, London and New York will be conducted. Spring Semester. *(URBS 369, URBS 469)*

13-313, 13-413  URBAN SUSTAINABILITY. Drawing on recent interdisciplinary work in urban studies this course examines the, often-conflicting social, economic and environmental dimensions of sustainable urban development theory and practice. In order to problematize the relevant discussion and connect it with the production of urban space we will analyze case studies in Athens and attempt to unpack the contradictions that are connected with urban development and the use of natural recourses in the last decades and during the current crisis. Fall Semester. *(URBS 370, URBS 470)*

13-323, 13-423  CONTEMPORARY URBANISM. The city, basin and peripheries of Athens have been in constant transformation since its modern foundation. The Athenian landscape, environment, society and urban fabric comprise a frantic, diverse and complex laboratory of change – designed, informal, democratic, entropic, catastrophic, top-down and bottom-up. Here the immense pressures, challenges and opportunities for the contemporary Mediterranean Metropolis and other global cities may be elucidated and projected upon in medias res, against the ancient walkscapes, vibrant commons, human scale, deep palimpsest, horizontal density, living typologies, enclave nature, waste landscapes, water networks, migration patterns, crisis conditions, civitas and public space of the contemporary city. This analysis and representation seminar examines the role and potential of Urban Planning and Design and the challenges of endemic and upcoming (climate) Change in ten specific zones, areas or urban enclaves of Athens – all exemplary locations of resistance, flux or genesis of urban transformation. How do contemporary theories of urbanism measure up against these places? What can design do to affect a city’s future? What new spaces, architectures, structures and environments emerge at the edge of the crisis and the wake of even greater challenges? The course is structured in lectures, student presentations and a number of walks. Students document their research in papers, maps & media. Fall and Spring Semesters. *(URBS 371, URBS 471)*

13-333, 13-433  URBAN DESIGN STUDIO. An optional studio course to be taken in conjunction with 13-323 *(URBS 371). Students produce designs for projects to be implemented in Athens. *(URBS 372, URBS 472)*

13-354, 13-454  SUSTAINABILITY IN GREEK URBAN AND ISLAND COMMUNITIES. The course discusses how human communities of different scale employed architecture, infrastructure and the natural resources available in order to sustain themselves. Students observe the metropolis of Athens and three small Aegean islands as case studies of the structures and processes put in place to cover their needs of food, shelter, social engagement and economic development. The evolution of these settlements and the practices used in the past and present are being juxtaposed and questioned in terms of their environmental, social and economic impact. Summer Session. *(URBS 375, URBS 475)*

13-946  INTERNSHIP (Academic or Experiential). CYA offers academic or experiential virtual internships. CYA places and oversees students in various multifaceted internships related to communications, business, tourism, cultural heritage management, social and economic research institutes, the environmental sector, health sector, NGOs that provide support for marginalized populations, museums, libraries, and theater and the arts. Students are supervised by a professional at the location of the internship as well as by a CYA faculty member. Up to 240 contact hours. Must be taken P/F. Fall, Spring, Winter and Summer. *(URBS 398)*

13-301, 302, 303, 304  SELECTED TOPICS. May be repeated with change in topic. *(URBS 399)*
