Seth Scientist

1234 East Third Street, Georgetown, TX 78626 | (903) 555-1517 | scientiss@southwestern.edu

EDUCATION

Bachelor of Science in Biology and Chemistry

Southwestern University

Dean's List

Beta Beta Beta (biology honor society)

Upward Bound Mentor

May 20

Georgetown, TX

20__

20 – 20

RELEVANT COURSEWORK

Biochemistry Organic Chemistry & Advanced Organic Chemistry Instrumental Analysis Cellular Physiology Spectroscopic Methods

Ecology

Microbiology **Medicinal Chemistry** Chemistry Literature

Organ Physiology Molecular Genetics

Intermediate Inorganic Chemistry

SKILLS

Laboratory: Mass spectroscopy, nuclear magnetic resonance, atomic absorbance spectrometry, UV spectrophotometry, infrared

spectroscopy, various chromatographic techniques, DNA subcloning, PCR, Western blot, p1 phage transduction,

aseptic technique, and prokaryotic culture

Computer: Microsoft Word, PowerPoint, Excel; Google Suite

Languages: Spanish (beginning proficiency); Japanese (beginning proficiency)

RESEARCH EXPERIENCE

Organic Chemistry Undergraduate Research Project

Fall 20

Georgetown, TX

Southwestern University

- Examined possibility of using two-fold extrusion reactions in synthesis of Tamoxifen and other highly substituted olefins
- Employed standard synthetic techniques and numerous analytical methods including: mass spectrometry, nuclear magnetic resonance, infrared spectroscopy, and various chromatographic procedures

Molecular Microbiology Undergraduate Research Project

SCOPE Undergraduate Research Program – Molecular Microbiology Project

Southwestern University

Spring – Summer 20___

Summer - Fall 20___

Georgetown, TX

- Examined role of protein regulation in MucAB mediated SOS mutagenesis
- Performed in vitro and in vivo experiments to analyze post-translational degradation of MucA and its cleavage product: MucA'
- Gained hands-on experience with numerous laboratory procedures including: DNA subcloning, PCR, Western blot, aseptic technique, and prokaryotic culture
- Earned invitation to present research at national conference

OTHER EXPERIENCE

Organic Chemistry Tutor

Fall 20__ - Spring 20

Georgetown, TX

Southwestern University

Tutored undergraduate organic chemistry students to help them understand concepts, complete homework and study for tests

Helped all students improve overall grade in course

Anesthesia Technician

Hopkins County Memorial Hospital

Summer 20_ Sulphur Springs, TX

- Prepared equipment and paperwork during pre-operation procedures
- Aided in insertion of arterial catheters

PRESENTATIONS

Developing a Model for MucAB Mutagenesis: Examination of Posttranslational Pathways for MucA/MucA' Regulation in Escherichia coli. American Society for Microbiology National Meeting, Orlando, FL (20__)
