2001 Post-Graduation Survey

METHODS
Prior to commencement in May 2001, all graduates were asked to complete and submit an online or written survey regarding their post-graduation plans. Two group emails generated 8% (N=22) completed questionnaires. Career Services then obtained written questionnaires from the graduates on the day of commencement regarding their future plans, bringing the total of completed questionnaires to 41% (N=107) of the total graduates. The graduates who checked "seeking employment" or those waiting for notification of graduate school acceptance were sent follow-up questionnaires early in Fall 2001. Twenty additional students responded, raising the total to 48% (N=127) completed. Following that process, faculty, staff and student organizations were sent memos asking for information regarding graduates from whom no response had been received. With the assistance of Career Services staff, phone calling was conducted in November 2001. Data was gathered on 13 more graduates, bringing the total of completed questionnaires to 53% (N=140). Information on 10 additional graduates was obtained from mail-outs in December 2001 and January 2002 for a total of 57% (N=150) completed questionnaires. Finally, phone calling by Career Services staff continued in January and February 2002, obtaining data on another 108 graduates, bringing completed documentation to 98% (258 out of 264).

Due to the fact that the average job or graduate-school search process takes approximately 6-12 months, the Post-Graduation Survey reflects placement of graduates approximately 10 months following the May 2001 commencement.

RESULTS
The 2001 Distribution of Southwestern University Graduates Graph (see sidebar) represents the 264 graduates in various career and post-baccalaureate fields. Percentages of the total number of graduates have been utilized to calculate the breakdown in categories. Of the total number of graduates 63% (N=165) were employed full-time while 24% (N=62) were accepted to and attended graduate, law, medical, theological and professional school, or took continuing education classes. Additionally, 3% (N=9) were employed part-time, and 5% (N=13) reported that they were seeking employment. Of the 3% (N=9) who reported "other/not seeking" graduates indicated health and family reasons as well as travel. Finally, "no information" was obtained from 2% (N=6) of the graduates.

Forty-two of 264 students (16%) earned two majors. To reflect accurately the pursuits of students within a particular major, these 42 students are counted in each of their majors in the quantitative study (see charts, pages 2-4), bringing the total number of "majors" who graduated in 2001 to 306. Students who earned two majors continued their education in proportionately higher numbers than earned full-time jobs, thereby lowering the percentage of "majors" working full time to 61% (N=188) and raising the percentage of "majors" continuing their education to 25% (N=76), in comparison to the same breakdown for the percentages of total graduates (see pie chart, page 1).

The total numbers of graduates and "majors" placed includes those employed full-time and those continuing their education. The percentages of those placed is calculated out of the actual respondents to the Survey, rather than the total number of graduates or "majors." Eighty-eight percent of responding graduates (N=227 out of 258) and responding "majors" (N=264 out of 300) entered full-time, professional positions or advanced degree programs (see chart, page 2).

Southwestern University's 2001 graduating class was very successful in securing employment. In 2001, 81% (N=133) of the total graduates employed full-time acquired jobs within the state of Texas, while 13% (N=22) found employment in 15 other states and the District of Columbia. Additionally, 1% (N=5) obtained positions outside of the United States in locations such as Zambia, England and New Zealand. Of those securing full-time employment, the percentage of total graduates decreased from 70% (N=183 out of 261) in 2000 to 63% (N=165 out of 264) in 2001, reflecting a tighter job market than the preceding year.

Many 2001 Southwestern University graduates decided to further their education. Of the total graduates who continued their education, 63% (N=39) reported their acceptance and attendance at Texas institutions for graduate or professional school, while 37% (N=23) reported their acceptance and attendance to graduate schools in 12 other states. Of those who indicated "advanced coursework" on their questionnaires, the areas of study reported were teaching certification, specialized study (costume design, music recording, emergency medical technology), pre-requisites for medical school and additional hours for the CPA exam. Overall, the percentage of graduates accepted to and attending post-graduate and other educational programs increased slightly from 21% (56 out of 261) in 2000 to 23% (62 out of 264) in 2001. Of the 62 graduates continuing their education full time, 8% (N=5) reported that they were also working full-time and 15% (N=9) were working part-time.

The graduates who were employed full-time attributed their success in the job search to: networking 42% (N=70), Internet 10% (N=16), Career Services 9% (N=15), career related experience/internship 9% (N=14), employment agency 6% (N=10), directly contacting the organization 5% (N=9), newspaper 5% (N=9), SU professor 1% (N=2), other 9% (N=14), and not specified 4% (N=6). With a tighter job market for 2001 graduates, networking and employment agencies earned graduates more jobs than in the recent past, while the Internet yielded fewer.

CONTINUING EDUCATION
Graduate School 55% N = 34
Law School 11% N = 7
Medical School 14% N = 9
Professional School 5% N = 3
Theological School 5% N = 3
Advanced Coursework 10% N = 6
Of 62 students continuing their education, 5 work full time and 9 work part time.

FULL-TIME EMPLOYMENT
Business 54% N = 89
Education 16% N = 26
Fine Arts 2% N = 4
Government 7% N = 11
Health 6% N = 10
High Tech 1% N = 2
Media 4% N = 6
Ministry 1% N = 2
Nonprofit 5% N = 8
Other 2% N = 4
Research 2% N = 3

STATEMENT OF NONDISCRIMINATION Southwestern University’s recruiting of students, awarding of financial aid and operation of programs and facilities are without regard to age, sex, race, religion, color, physical handicap, and national or ethnic origin. Southwestern University’s commitment to equal opportunity includes nondiscrimination on the basis of sexual orientation.

CAMPUS SAFETY AND SECURITY ACT OF 1990 Southwestern University, like all colleges and universities which receive any federal funding, is required to record and report the incidence of certain criminal activities which have occurred on campus over the previous three years. In addition, schools will provide information on local counseling and procedures for campus disciplinary action in sex offense cases, and campus alcohol and drug policies. Southwestern’s most recent report may be obtained by writing Southwestern University, Dean of Students, P.O. Box 770, Georgetown, Texas 78626-0770, or by telephoning 1-800-252-5160 in the USA or 512-868-1200.

Career Services has prepared this 2001 Post-Graduation Survey for review by the Board of Trustees, faculty, administration and students. This survey contains data secured from the 2001 graduates and reflects individual career status as of Spring 2002.

A special thanks is extended to Brenda Mayorga '03, Julia Letew '05 and Jessica Waldrep '05 for their hard work and dedication in collecting, compiling, organizing, and analyzing the data. We would also like to express our gratitude to Sarah Winn '03 and Jennifer Grimsley '03 for their contributions in the information gathering process.
