

DENTAL coverage
Administered by MetLife

What's the Difference Between the PPO Plans?

PPO Low Dental Plan (Value)

There is a \$1,500 annual maximum benefit per individual.

You must see a network dentist.

If you go out of network, reimbursement is based on a negotiated fee (usually much lower)

PPO High Dental Plan (NAP)

There is a \$1,750 annual maximum benefit per individual.

You can see any dentist.

If you go out of network, reimbursement is based on reasonable and customary rates.
